Allies Pushing On Despite Increased Nazi Opposition

Hopes of Quick Conquest of Rome Fade as Muddy Terrain Delays Advance

ALLIED HEADQUARTERS, Algiers, Oct. 21 (AP).—Hopes of a quick Allied conquest of Rome faded tonight as the Allied Fifth Army slogged forward at a slackened pace through muddy terrain a little more than 21 miles north of Naples, just 21 days after entering that important port.

An average of a mile a day in country that was growing increasingly difficult, and against German resistance growing correspondingly stronger, placed the capture of the Eternal City, 100 airline miles away a considerable distance into the future.

Wednesday Lt.-Gen. Mark W. Clark's augmented forces registered only slight gains north of the Volturno River as patrols probed into the enemy's new 27-mile-long defence line along the rugged Massico Ridge from the sea to Venafro. The soggy, devastated agricultural terrain posed tough transport problems for the Allies.

GERMANS THINK MORE TROOPS COMING

The Berlin radio said tonight that "the possibility that the Allies are planning a further landing in Italy is envisaged" in Berlin "German military quarters point out," said the broadcast, "that the Allies probably desired to make up for lost time and to compensate for the delay which has arisen in the south of Italy." Mediterranean shipping has been "unusually lively" since the beginning of October, Berlin said.

Fighting 2,400 feet above sea level along Italy's mountainous backbone, Gen. Sir Bernard Montgomery's British Eighth Army captured the village of Busso, about four miles west of Campobasso, and Oratino, a few miles to the north. Storming of the high ground west of Campobasso against strong Nazi resistance was essential for the movement of Montgomery's forces along an important road toward the highway and rail junction of Isernia.

WOULD THREATEN TO FLANK LINE

From Isernia a lateral road leads southwest to Venafro, and any push along this road by the Eighth Army, which includes the Canadian First Division, would threaten to flank

Army Chiefs Join Talks At Moscow

Radio Reports Eden Received by Stalin

MOSCOW, Oct. 21 (AP). — The British, American and Russian Foreign Ministers met again today, with military leaders once more in attendance, and a British spokesman said they were nearing the end of their "very frank and full" discussions on the first topic of the agreed agenda.

The three groups sat around the conference table for four hours at Spiridonovka Palace. The expansion in the number of conferees might be taken to mean that the scope of the discussions had broadened already and that deliberation on purely military matters was closed, temporarily at least.

Full staffs are expected to attend all subsequent daily meetings.

NO REFERENCE TO SECOND FRONT

A British spokesman was asked at a press meeting whether the Russians at the parley had brought up the statement of Field Marshal Jan Christian Smuts, Prime Minister of South Africa, which suggested that a "second front" in Europe would come in 1944 and not this year. The spokesman replied.

"No, and so far as I know there has been no reference to it."

Maj.-Gen. John R. Deane, new head of the permanent American military mission to Russia, and Lt.-Gen. Sir Hastings Ismay, chief staff officer for Prime Minister Churchill, entered the conference with Foreign Secretary Eden, Cordell Hull, United States Secretary of State, and Vyacheslav Molotov, Commissar for Foreign Affairs. Their presence for the second straight day and the British spokes-

Cunningham Taking Over

To Command Fleet In Mediterranean

LONDON, Oct. 22 (Friday) (CP).—Admiral Sir John H. D. Cunningham has been appointed commander-in-chief of the Allied fleet in the Mediterranean, succeeding his distant cousin, Admiral of the Fleet Sir Andrew Browne Cunningham, who is the new First Sea Lord.

The appointment, effective October 15, was not made public until today.

One of Britain's famous "fighting Cunninghams," Sir John was made a full admiral shortly after his appointment as commander-in-chief of the Levant last August. He was formerly fourth sea lord and chief of supplies and transport. Other important posts he has held include director of plans and assistant chief of naval staff for air. He was in command of the First Cruiser Squadron at the outbreak of the war.

He and Sir Andrew are distant cousins. His younger son, Lieut. R. L. Cunningham, died in navy service in 1941.

Sir Andrew, commander-in-chief in the Mediterranean when the Italian fleet surrendered, was named First Sea Lord October 4 upon the retirement of Admiral Sir Dudley Pound, who died yesterday.

Sir John will serve as fleet commander under Gen. Dwight D. Eisenhower, Allied commander-in-chief.

Makes Effort To Cheer Nazis

LONDON, Oct. 21 (AP). — Propaganda Minister Paul Joseph Goebbels attempted to assure the German home front today that the "tragic collapse" of 1918 could not be repeated.

"The Germans now have in sufficient abundance" that which they did not have in 1918 and resulted in their failure, he wrote in his newspaper Das Reich according to the Berlin radio.

Goebbels listed these abundances as "a political understanding of the fateful nature of this war, courage, endurance, steadfastness and tenacity."

He said that the Germans were well aware of the "temporary dangers" of their position, "but were not unaware at the same time of their strength and their resulting chances of victory."

ADMIRAL KILLED

LONDON, Oct. 21 (CP).—A German Transocean Agency broadcast said today that Admiral Antonio Legnani, named Secretary of the Navy in Mussolini's Republican Fascist regime September 23, had been killed in an automobile accident. The broadcast was recorded by Reuter's News Agency.

Wing Commander Gibson Receives U.S. Legion of Merit

General H. H. Arnold (right), United States Army Air Force commander, pinning the Legion of Merit Medal on Wing Commander Guy P. Gibson, gallant member of the Royal Air Force, in a ceremony in Washington, D.C. Gibson was the officer who led a squadron of planes into Germany in May of this year and bombed the Moehne and Eder dams with such good effect that the industrial sections of the Ruhr Valley were flooded.

Changing Requirements Causing Plant Lay-Offs

Up to 1,500 to Lose Jobs at Vancouver

OTTAWA, Oct. 21 (CP).—Changing requirements of war weapons and equipment is resulting in a slowing down of production in some war plants and in greater activity in some others, a Munitions Department official said tonight.

He was commenting on a Vancouver dispatch saying that "more than a score" of plants have received orders from Federal authorities to eliminate second and third shifts, thus affecting "between 1,000 and 1,500 workers."

The official said he knew nothing of the exact number of plants affected, and expressed opinion the order might have followed the slowdown in the shipbuilding industry with a large number of sub-contractors affected.

ORDER COMES WITHOUT EXPLANATION

VANCOUVER, Oct. 21 (CP).—More than a score of Vancouver war and industrial plants have received orders from the Federal authorities to eliminate second and third shifts affecting between 1,000 and 1,500 employees, it was learned today.

The order came through without explanation said an official of one company affected, but he added that the plants were mostly those which had caught up on their schedule and were ahead in production.

He also said that possibly the war had reached a state where no more defensive weapons were required and that Government authorities might be awaiting war developments to see what would be needed next before letting new contracts which would necessitate retooling in some cases.

The order affected some 270 men

Island Passes Million Mark

The fourth day of the Fifth Victory Loan campaign saw Island figures creep over the million-dollar mark and up to closing of books yesterday, just over 15 per cent of the objective had been reached.

The Courtenay-Comox unit topped the list with 23 per cent of its objective. Oak Bay coming second with 20 per cent. Victoria raised a total of $647,000 to reach approximately 15 per cent of what is expected of it.

Official returns to date are as follows:

	Subscribed	Objective
Victoria	$647,000	$4,100,000
Saanich	117,900	950,000
Oak Bay	181,300	950,000
Esquimalt	41,000	625,000
Cowichan	86,750	720,000
Courtenay-Comox	183,250	420,000
Nanaimo	121,000	725,000
Alberni	71,850	625,000
Totals	$1,378,650	$10,250,000

These returns are encouraging, local officials say, who realize that during the first week of any campaign it is difficult for canvassers to confirm bond applications on their first calls. Many are asked to call back several times, which prevents them from making their initial week's work as effective as it might otherwise be.

For the first time the Victoria unit has two lady canvassers, Miss

Big Japanese Base Raided

PEARL HARBOR, T.H., Oct. 21 (AP).—Tarawa, major Japanese base in the Gilbert Islands, was attacked again on October 18 "by a small force" of Navy Liberator, bombers, the United States Navy announced here today.

The heavy bombers encountered "considerable anti-aircraft opposition," the announcement added, but "our forces suffered no damage."

No enemy aircraft were sighted during the raid.

Tarawa, some 2,500 miles southwest of Hawaii, was one of the places attacked by the carrier task force and land-based army and navy bombers which raided the Gilberts last September 17 and 18.

LEAVES FOR TORONTO

Harold Temple, son of Mr. and Mrs. Shirley Temple, 3491 Lovatt Avenue, who recently joined the R.C.A.F., left Victoria on Monday for Toronto, where he will train.

He was born in Regina 18 years ago, but has lived in Victoria for the last 17 years. He attended Cloverdale and Mount View High Schools.

24 Aboard Plane Lost For Days

No Trace of Bomber Missing on East Coast

OTTAWA, Oct. 21 (CP).—Search continued tonight for a huge four-motored Liberator bomber missing since Tuesday night over the Gulf of St. Lawrence with 24 aboard as R.C.A.F. headquarters corrected an earlier announcement that wreckage had been sighted with the flat statement search planes have so far "failed to find any traces" of the missing craft.

In a morning statement, the Air Force had stated wreckage had been sighted off the mouth of the Saguenay River, and even this afternoon officials here said they had virtually no doubt it would prove to be the Liberator.

Then, at 4:25 p.m., C.D.T., a new statement was issued contradicting the first.

"Aircraft searching for the Liberator aircraft missing in the Gulf of St. Lawrence area since Tuesday, failed to find any traces of wreckage previously reported near the mouth of the Saguenay River.

"The search is being continued."

Only the scantiest reports have reached headquarters here on the search for the plane, last reported over Mont Joli, Que., carrying a crew of six and 18 other R.C.A.F. men from stations of Eastern Air Command.

If all aboard died, the crash was the worst in Canadian aviation history. The greatest previous death toll was 20 in the crash of an American Airlines plane near St. Thomas, Ont., October 30, 1941.

"Wreckage has been sighted off the mouth of the Saguenay River by searchers for a Liberator aircraft

Japanese Gain In New Guinea

ALLIED HEADQUARTERS IN SOUTHWEST PACIFIC, Oct. 22 (Friday) (AP).—Japanese troops in the jungle northwest of Finschhafen, New Guinea, have advanced still farther by infiltration in a move disclosed for the first time today by an Allied spokesman as one intended to save their forces by reaching the coast.

The enemy drive, which precipitated a battle involving thousands of Japanese and Australians, is not at present aimed at recapturing Finschhafen, the spokesman said.

Although acknowledging some enemy progress for the third straight day, he explained their limited successes were due to infiltrating patrols sent out at night, with all frontal assaults repulsed. The Japanese, moving out of the Sattelberg area, 15 miles northwest of Finschhafen, are seeking to achieve a solid line along the Song River. Its mouth is five miles north of Finschhafen, the coastal base wrested from the enemy October 2.

Elements of Australia's 9th Division are barring the way in the coast. These Aussies control areas on both sides of the Japanese positions, the spokesman said.

In one of the heaviest raids made recently by the Japanese 30 planes harassed Australian positions around Finschhafen early Wednesday. Their bombs caused minor damage and casualties.

Start Production Of Helicopters For Public Use

VANCOUVER, Oct. 21 (CP). — The Automobile Association of British Columbia, meeting tonight, decided to bring to the attention of the Provincial Government through the Public Utilities Commission the need for control of helicopter flights by a public commission.

Directors began looking to the postwar era of private flight when C. E. Thompson, vice-president, returned from a business trip East and reported that one large automobile company has already started production of helicopters on a large scale for public use.

The subject of control of their operation, particularly as public carriers, is agitating legislative authorities in most Eastern states and provinces, he said.

While Dominion authorities controlled air lines operating on main routes so far no body had been set [illegible] for helicopter services. He believed it essential to agitate for such a step immediately.

Brown Quits as U.S. Price Administrator

WASHINGTON, Oct. 21 (AP).—President Roosevelt accepted today the resignation of Prentiss M. Brown as price administrator.

Brown turned in his resignation in a six-page letter dated last Tuesday, in which he said he thought the price control programme was well defined in laws and in Presidential orders and [illegible] now is one of administration.

Sir Dudley Pound Dead; Won War Against U-Boat

LONDON, Oct. 21 (CP).—Admiral of the Fleet Sir Dudley Pound, who as First Sea Lord was credited with winning the Battle of the Atlantic [illegible] famous anniversaries—Lord Nelson's victory over the French at Trafalgar in 1805.

First Sea Lord from 1939 until he was forced by ill health to resign October 4, Sir Dudley, 66, directed the Royal Navy through four of its most critical war years.

The navy called him the "architect of success" and when he re- [illegible] of the Fleet Sir Andrew Browne Cunningham, it was said of him by A. V. Alexander, First Lord of the Admiralty, that he had borne "an enormous burden for more than four years in piloting the Royal Navy through the greatest crisis in its history."

Sir Dudley, who entered Royal Masonic Hospital September 20 after his return from the Quebec Conference, was kept so busy during those critical years that he got home for a night's rest only about four times a year.

Sir Dudley was tough, realistic and taciturn, partly due to his train-

A Course to Steer by

For more than four years now some Canadians have been in contact with the foe. In the freezing seas off Newfoundland men [illegible] enemy submarines from rigging that was coated thick with ice. It is a long, cold watch, that. Canadians were on the beaches at Dieppe in hand-to-hand grips with the Germans. They were wounded and went forward cut off and fought on to the last round of ammunition. They have met the Hun in Sicily and in Italy they have got a little of their own back on account of more to come. Canadians in their hundreds have flown over Germany along the Rhine beyond the Alps, made their bombing runs on key enemy targets, fought fire in their planes on the way home, clamped their jaws and brought their planes in, to the full limit of human endurance. These men have not counted the cost of sacrifice. It has been all or nothing with them. So it is with all who have met the same foe on land at sea or high in the white-vapor trails of the air. At home we can do no less than back up those who are fighting for us every day every minute of every hour. Victory Bonds taken now will join in that battle and help to bring back to us the sooner those whom we admire and love. For we, too are in the front line. There is the course to steer by, until Victory is won.

Berlin Admits South Army In Extreme Danger in Russia

Red Troops Plunge to Within 23 Miles of Krivoi Rog City

LONDON, Oct. 21 (AP).—The Red Army plunged to within 23 miles of the industrial centre of Krivni Rog today, rolling over 1,500 German dead and through 50 more Dnieper River loop villages in a six-mile stride toward the Black Sea, Moscow announced tonight.

"The enemy is sustaining enormous losses and under the blows of our troops is retreating, abandoning arms and stores of war materials," said a midnight communique supplement broadcast by Moscow and recorded by the Soviet monitor.

While a Berlin spokesman admitted the Southern German army was in an "extremely dangerous" plight, enmeshed in a giant Soviet pincers the Russians also announced the capture of the centre of embattled Melitopol, Crimean gateway far to the southeast, and fresh gains north of Kiev and southwest of Gomel.

WIPE OUT 1,000 GERMAN TROOPS

In Melitopol, last major Axis position east of the Lower Dnieper which is holding up the other arm of the Soviet pincers, the Russians said their units wiped out 1,000 enemy troops and smashed German reinforcements in stiff fighting.

The streets of the city were said to be strewn with German dead, dozens of wrecked tanks, huge 88-mm. guns and other abandoned enemy equipment.

From Europe Day by Day—

THE TIMES, London

News and Comment on International Events selected from The Times daily and published in The Daily Colonist by special arrangement with The Vancouver Daily Province.

(Copyright, 1943 by Southam Co.)

LONDON, Oct. 21. — Admitting disappointment caused in Russia by General Smuts' announcement that no second front will come in Western Europe until Spring, The Times editorially says the British Empire has tied up a great proportion of its military strength in the Mediterranean and is preparing for other campaigns in India.

Consequently, for reserves of manpower to form strategic reserve of troops for the big European assault it must rely on the United States.

American troops however, are thousands of miles from the potential war zone. They must be brought across the ocean, trained, prepared and equipped before they can be used in the grand assault, and this will take time. Britain has still substantial forces on these islands, the French have a large army in North Africa now nearly ready, but for quick and shattering victory more are required.

Altogether, it is an unparalleled undertaking, but not beyond the power of the United Kingdom and United States combined.

The Red Army has inflicted on the Germans a series of incomparable defeats. Now it is in the ascendant. But the Western Allies must bring comparable pressure in the west against the common enemy.

Commenting on Lord Beaverbrook's House of Lords statement on the Empire conference on civil aviation, The Times says he made it clear that future air authority controlling Empire flying must be linked with an authority that shall control an international aerial police force. Before other conferences

HALT JAPANESE DRIVE

CHUNGKING, Oct. 21 (AP).—The Chinese High Command, following up its declaration yesterday that the Japanese offensive along the Burma Road in Southwestern China had not succeeded in pushing across the Salween River, indicated today that the three-pronged Japanese drive had been halted at least temporarily.

LITTLE DAMAGE IN RAID

LONDON, Oct. 22 (Friday) (CP).—The Germans staged their sixth successive air raid on London early today, but according to first reports caused little damage. Some casualties were reported in one Outer London residential district. The alert sounded about 3 a.m., and the all clear about an hour later. The hum of the Nazi planes was heard shortly after the alert sounded, and intermittent gunfire followed.

SIR JOHN HERBERT RESIGNS

LONDON, Oct. 22 (Friday) (CP).—Sir John Herbert has resigned for reasons of health as Governor of Bengal, the India Office announced today. Taken seriously ill with peptic ulcers late in August, an operation now is necessary for Sir John, whose tenure of office normally would expire in November, 1944. Sir Thomas Rutherford, Governor of Bihar, was named acting governor of Bengal September 4.

Mountbatten in Tri-Power Talks

CHUNGKING, Oct. 21 (AP).—Admiral Lord Louis Mountbatten, supreme Allied commander in Southeast Asia, has completed a series of three-power talks with Generalissimo Chiang Kai-Shek and Lieut. Gen. Joseph W. Stilwell in Chungking, it may now be disclosed.

Other American representatives as well as General Stilwell, who is chief of staff of Allied forces in China, took part in the strategical discussions.

Lord Mountbatten arrived in [illegible] to India yesterday.

Conference Delayed

OTTAWA, Oct. 21 (CP).—Failure of some of the representatives to reach Ottawa in time caused a delay in today's scheduled Dominion-Provincial conference on liquor revenues, which now will open tomorrow.

The conference will work out agreements under which the provinces may apply for compensation from the Federal Treasury for the amount their liquor revenues fall [illegible] in the year ended June 30, 1942.

Exchange Ship To Sail Today

MORMUGAO, Portuguese India, Oct. 21 (AP).—Hopes for future repatriation exchange were voiced by both United States and Japanese officials today as the Japanese ship Teia Maru left for home.

She was laden with Japanese nationals and 2,400 tons of Red Cross goods for internees and war prisoners.

The Japanese repatriated from the Americas, were traded for Allied nationals who were brought here on the Teia Maru and transferred to the Swedish liner Gripsholm.

The Gripsholm which took aboard 400 tons of Red Cross supplies for Japanese interned in the Americas, was expected to sail tomorrow with 1,300 Americans, Canadians and Latin Americans.

In a message relayed through the Swedish Embassy, Baron Yasushi Hayashi, who conducted the exchanges here for the Japanese, said that he favored more such trades and that he hoped arrangements would be made to consummate them more quickly.

At the same time, Austin Roe Preston, United States Consul General in Portuguese India, who directed exchange arrangements for the Americans, said the operation was "run very smoothly indeed."

"I sincerely hope more will occur," he added.

Smuts Offers Aid

LONDON, Oct. 22 (Friday) (CP).—Daily Mail said today that Field Marshal Jan Christiaan Smuts has offered to send large quantities of grains, milk powder and other foods from South Africa to help relieve the Bengal famine and that the offer had been accepted.

The B.B.C., in a broadcast, said "the Government of British India has expressed its appreciation of the offer."

CHANGES POSTS

BUENOS AIRES, Oct. 21 (AP).—Gen. Alberto Gilbert resigned today as Minister of the Interior and was appointed Foreign Minister in replace Segundo Storni, who resigned September 8 after the United States refused lend-lease aid to Argentina.

Gen. Luis C. Perlinger was named to succeed Gilbert as Minister of the Interior.

Raiders Follow German Plants To Border City

Great Fleet Smashes At Leipzig Factories

LONDON, Oct. 21 (AP). — The R.A.F.'s big night bombers flew into the heart of Germany last night and attacked Leipzig, third most important Nazi industrial centre and a key railroad junction for supplying the German armies on the Russian front.

A large force gave Leipzig its first large-scale blasting of the war with a loss of 17 planes, the same number as lost over Hanover on Monday. Simultaneously the R.A.F.'s indefatigable and fast twin-engined Mosquitos again harassed Berlin and other Western German cities in a campaign to "keep the sirens going" between knockout saturation raids.

Leipzig, a city of 700,000, lies almost on the Czech border 100 miles southwest of Berlin and more than 500 air line miles from London. Only Berlin and Hamburg are more im-

Searchlights Keep U-Boats Under Sea

LONDON, Oct. 21 (AP).—The "keystone of success in the air offensive against the U-boats in the Atlantic" has been a powerful searchlight of a special type used on anti-submarine aircraft, the Air Ministry news service disclosed tonight.

The guardedly-phrased announcement described the searchlight as "in the millions of candlepower in strength" and said it has been used for more than a year.

The submarines which formerly surfaced at night to charge their batteries now are being forced to "cruise submerged at night and risk surface movement by day."

Victory Loan Totals for Canada Above Last Year

OTTAWA, Oct. 21 (CP).—The third canvassing day of Canada's Fifth Victory Loan rolled up a total of 106,877 individual subscriptions bringing the three-day cumulative total to 187,434, compared with 127,712 for the first three days of the Fourth Loan, national headquarters announced tonight.

The dollar total for the first three days was $201,967,500—a daily average of $67,300,000 against the average of $66,666,000 needed each day to reach the $1,200,000,000 objective within the 18-day campaign.

Wednesday's one-day dollar total was announced as $75,380,250 against $57,257,200 for the third day of the fourth drive.

From Winnipeg Mayor Garnet Coulter and Frank G. Fowler, chairman of the City of Winnipeg Sinking Fund trustees, reported the investment of $750,000 on behalf of the Sinking Fund trustees, the Civic Employees Pension Fund, the City of Winnipeg Hydro and Sinking Fund of the Greater Winnipeg water district.

Sees John Bracken as Next Prime Minister of Canada

A FIRM conviction in the strength of John Bracken and his possibility of becoming next Prime Minister of Canada, was expressed last night by Gordon Graydon, M.P., leader of the Progressive Conservatives in the House of Commons and president of the Progressive Conservative Association of Canada

"If an election were to be called this year the next Prime Minister would be John Bracken," he told a gathering of Progressive Conservatives of all associations of Greater Victoria, meeting at the Conservative rooms, 736 Fort Street "But the election will be called when Mr King thinks he has the best chance of winning"

He cited the recent election in Ontario as an example of the growing strength of his party. There, 15 of the 16 seats gained were in rural ridings, he said, adding that in the Prairie provinces the majority of farmers are looking to Mr. Bracken as the next Prime Minister

"They also say on the Prairies that the fortunes of the Liberal party have never been at a lower ebb," Mr. Graydon said

He described the party leader as a man with 20 years of service as Premier in Manitoba, who had more support at the end of that time than at the beginning By the route of rational reform he will fulfill the objectives of the Port Hope conference and Winnipeg convention, Mr Graydon said, describing this programme as the most modern yet proposed to meet modern conditions

URGENT NEED FOR REHABILITATION

Two years ago, Mr. Graydon stated, he learned that across Canada there was an urgent desire and need for the rehabilitation of the Conservative party, which found voice at Port Hope.

Measures were undertaken by Mr. Bracken, he said, which have led to the party having its first continuous policy of organization in 12 years. Every province is fitting into the programme of reconstruction. A national newspaper was founded for the first time and is now in its third issue, a research unit and central speakers' bureau have been established, and study groups are being formed.

"There is a growing feeling that if democracy is worth fighting for it is worth knowing something about," he said "We will only have a decent system in Canada when our people know how to operate it. Education is necessary in order that our youth and adults will know how to use their treasured franchise."

One of the association's main desires is to set up a network of study groups across the country, and already a nucleus group has been formed in Ottawa, Mr. Graydon said.

"The day is gone when politics can be regarded as a game, because in this war and after there is no time for games," he said "It is of vital national importance that our party shall be in the position to accept responsibility for the furtherance of national issues and interests

"When war was declared the Conservative party offered the Government whole-hearted co-operation," he said, "yet after the offer was made Prime Minister King announced that neither he nor his ministers would have anything to do with a National Government involving other parties He might have said it would be a Liberal war or nothing

He closed with the statement that the Progressive Conservatives will do everything possible to maintain, encourage and strengthen relations between Canada and the British Empire He also pointed out that the enemies of Canada were not Canadians, but Germans and Japanese, and urged the audience to give all support to the Fifth Victory Loan.

Mr Graydon arrived here yesterday from Vancouver at 3 45 p.m., and will leave today on the afternoon boat. He was entertained at dinner at Terry's dining-room by officers and leaders of local Progressive Conservative Associations with Gordon Cameron presiding

He was greeted by the following presidents of Progressive Conservative Associations of Greater Victoria: Mr. Cameron, Victoria Federal; Alderman D D. McTavish, Victoria Provincial, who thanked him for his address, Brig J. Sutherland Brown, Oak Bay Provincial; Sinclair Elliott, past president, Victoria Provincial; Frank H. Davey, Nanaimo Federal and Saanich Provincial, and Col. Robert H. Palmer, Saanich.

Saw De Maringy Near Oaks' Home

Constable Says He Talked to Accused

NASSAU, Bahamas, Oct. 21 (AP)—In his first direct move to link Alfred de Marigny with the murder of Sir Harry Oakes, the Crown prosecutor brought out testimony today to place the handsome defendant near his father-in-law's estate last July about the time the Canadian mining millionaire was beaten and burned to death.

And from a native constable he produced a statement that de Marigny appeared a few hours later, looking "excited and mad" and with a "wild look" in his eyes.

Attorney General Eric Hallinan played his cards carefully in an attempt to drive home to the jury the significance of his disclosures.

First, he drew from Nassau's coroner, Dr L. W. Fitzmaurice, the estimate that Oakes was attacked and slain at Westbourne, his seaside estate, between 1 30 and 3.30 a.m. "four to six hours after the completion of his last meal."

Then from the wife of an R A F flyer, he brought out testimony that de Marigny had left her and a friend at their homes, two doors from Westbourne, shortly after 1 a.m.

Mrs Dorothy Clark said that she and Mrs. Jean Ainslie were among the 11 guests of de Marigny at dinner the night of July 7, and that he drove them to the cottage they share

Cross-examining Mrs. Clark, Godfrey Higgs, chief defence counsel, sought to explain burned hairs which investigators told of finding on de Marigny's hands and arms after the slaying. The prosecution has contended that anyone in the room at the time of the attack would have singed hairs

De Marigny stood, his arms resting atop the prisoner's box, while Higgs asked Mrs Clark whether he had exhibited and lighted hurricane lamps during the dinner party. Yes she replied

"Did the accused light the candle through the top this way?" and Higgs demonstrated with one of the lamps.

"Yes"

"Were there more than one of these glass chimneys?"

"Yes"

"Did you hear the accused complain of a burned hand when lighting one of them?"

"Yes"

It was Constable Wendell Parker who told of a visit by de Marigny to the police station about 7 30 a.m July 8

"I was struck by his appearance," the tall, uniformed witness related. "He seemed excited and mad"

"What struck you about his appearance," asked A F Adderley, special prosecutor.

"His eyes appeared wild and his lips protruded," Parker replied, adding that de Marigny inquired about the necessity of bringing in a truck for inspection.

On Trial

Count Alfred de Marigny steps from his automobile on his way to the Nassau courthouse, where he is on trial for the murder on July 7 of his famous father-in-law, Sir Harry Oakes, a former Canadian.

MUST STAND TRIAL

HALIFAX, Oct 21 (CP)—A Supreme Court grand jury today returned a true bill against Charles Welsford, charged with murdering his father in March, 1939 and later committed to the Nova Scotia Hospital as insane.

Welsford, a college student in Halifax at the time his father Charles A Welsford, was shot to death here recently was declared sane and removed to the county jail from the Nova Scotia Hospital at nearby Dartmouth.

IN PRISON CAMP

LONDON, Oct 21 (CP)—Berlin radio has announced that Capt Earl Haig, 25-year-old son of Britain's commander in chief in the first Great War now is in a German prison camp He was taken prisoner in the Middle East in August 1942 and had been held in Italy until recently

"Common Bond We Have With Them"

HELENVILLE, Wis., Oct 21 (AP)—The Congressional Medal of Honor the United States' highest military decoration—lay in its case today alongside a picture of the late Sgt Kenneth E Gruennert in the modest home here of Mr and Mrs Arthur Gruennert.

It had come through the mail with a citation signed by President Roosevelt and a letter from War Secretary Henry Stimson because the Gruennerts had wanted it that way

The Gruennerts had been asked by the War Department to receive the medal for their son from the President They didn't believe they should go, however They wrote the War Department saying

"We are in the midst of the third war bond drive We believe every cent of money subscribed should be used to supply our boys with the necessities of war and not spent for trips that do not directly help the war effort

"Only this last week thousands of other parents lost their loved ones on the battlefields of Italy ... brave boys that were loved by their parents as much as we loved our own These parents can not all converge on Washington and because of the common bond we have with them we feel we shouldn't either"

The letter found its way to Stimson's desk The Secretary of War wrote back

"The spirit of unselfishness understanding and sacrifice which breathes through your letter has deeply impressed not only the President [illegible] in the War Department who have been privileged to read your letter We stand humble in the face of such a demonstration of patriotism as yours"

Sgt Gruennert was killed last Christmas Eve in New Guinea when he advanced alone ahead of the platoon of which he was second in command and made it possible for the platoon to split the Japanese position on the beach near Buna.

Gruennert knocked out one enemy pillbox single-handed and drove the occupants of another into the open where they were routed by his men He was killed by snipers before the platoon could reach his advanced position

Canada's Total

Continued from Page 1

The R.C.A.F. is still out in front of the army in the rivalry of the armed forces, the navy not announcing any total as yet because so many of its personnel are at sea From army and air force the total tonight was $9,502 700, of which the air force has subscribed $5,245 100 and the army $4 257,600

Headquarters said Sorel, Que., among larger centres to reach combined general canvass and payroll savings quotas, put up a stiff challenge to Brantford, Ont., still leading with 64 8 per cent Sorel is close behind with 62 8 per cent

Other leaders, as reported by loan headquarters, were Lethbridge, Alta., 28 and Edmonton, 18 5 per cent.

ROYAL ROADS INVESTS $2,000

On the Pacific, officers at the R C N College in Victoria invested $2,000 in one day. H M C.S. Kultan added honor to the Fishermen's Reserve by getting twice its quota H.M C.S Discovery, the training establishment at Stanley Park Barracks, took less than 24 hours to exceed its $17 000 quota

Sailors of H M C.S Chippewa, Winnipeg, expect to reach their quota before the week ends

M D 12, Regina, had $202,200, 84 per cent, and M D. 13, Calgary, $338 200, 81 per cent.

man's declaration suggested the delegates were winding up the military subject which the Russians have been so eager to discuss

PREMIER STALIN RECEIVES EDEN

The Moscow radio said Premier Marshal Joseph Stalin received Eden today. Also at the meeting were Molotov and Sir Archibald J C Kerr, British Ambassador

Eden was reported as pleased over the progress to date

Hardly at any time in the history of the Soviet Union have relations been so cordial with Britain and the United States

Moscow newspapers continued to highlight the news of the conference, and one Russian military commentator Col Nikolai Akimov, again touched on the subject of an Allied "second front" in Europe

"The Red Army's recent successes" he said, "have made the situation more favorable than ever for an invasion of Europe by British and American troops

"The strategic leadership of the armed forces of the United Nations must take advantage of the present situation and strike while the iron is hot"

Asked if Eden was not being too optimistic about the proceedings and their outcome the British spokesman said

"Up to this point I would say no"

Tea and Coffee Rations to End

OTTAWA, Oct. 21 (CP)—The Prices Board today quoted R. B Mohan, its administrator of tea coffee and spices, as saying that it is hoped to announce before Christmas that rationing of tea and coffee can be suspended.

Mr. Mohan has his office in Toronto To a query from Prices Board headquarters in Ottawa as to whether coffee rationing might not be necessary at any time in the near future, he replied.

"None of us know what the future will bring. I am very optimistic at present and will be very happy indeed if I have the pleasure of being able to announce before Christmastime that rationing of tea and coffee can be suspended.

"That is our hope and it seems possible, if we do not run into any unforeseen circumstances."

Girls Battle for Love of Mere Man

LOS ANGELES, Oct 21 (AP)—How two 'teen-age girls, jousting over the affections of a married man, engaged in a moonlit hand-to-hand knife fight in which both combatants were injured was related today by Detective Lieut. William O Marr

The struggle, the detective said was fought in the presence of "seconds" for each attractive belligerent Identity of the married man was not revealed, Marr said

In hospital with deep arm wounds is Doris Rhodd, 17, a telephone operator, and at home, nursing various nicks on her hands, is Betty Reeves, 19 a drug store clerk.

Major Thomas Goff, great grandson of William IV, has presented his home The Court, Holt, Trowbridge, Wiltshire, to the National Trust.

Preparations for a Nazi retreat from all Northwestern Russia as well as from the Crimea and the Dnieper bulge in the south are indicated in Berlin advices to Swedish papers. They report German fortification of a defence line "south of Narva in Estonia" in anticipation of a Russian offensive in the north to match the Red Army blows being struck in the south and centre

There would be no necessity of such a defence line if the Germans hoped to hold in the north. Narva lies just within the Estonian borders on the Revel-Leningrad rail and highway system close to the Gulf of Finland coast It is also on the Naroova River, the sea outlet from the Peipus Lake chain that forms most of the Russian-Estonian frontier, leaving the narrow Narva Isthmus as the only land bridge between the two countries north of the Pskov gateway, south of the Peipus Lakes

German military experts were said to predict a new Russian attack in the Leningrad area integrated with a renewed westward push from Nevel, 150 miles south of Pskov. The reports to Sweden added that Estonians had been warned by the Nazis of an approaching "national emergency."

Events elsewhere have sufficiently proved that the Nazi command has not the reserves to hold so exposed a position as the long and irregular Loval-Volkhov-Leningrad flank. The alternative is retirement into the Narva Isthmus in the north and behind the Peipus Lake chain from there to the Pskov gateway.

That would mean, however, evacuation of all Northwestern Russia with no more than Nazi rearguard actions It would lead inevitably to anti-Nazi uprisings in Estonia and all the Baltic states And it must also tend to force little Finland, virtually to be abandoned by her unwelcome Nazi war partner, into action to end hostilities with Russia on the best terms she can obtain.

Obviously, therefore, the question of Finland must stand well up on the agenda of the tripartite conference in Moscow Detachment of Finland from the war well may be the first positive fruit of that Hull-Eden-Molotov meeting

Berlin broadcasts acknowledged that 120,000 Russian troops supported by hundreds of tanks had smashed through German lines on a three-mile front. Berlin has never acknowledged this new Russian crossing of the Dnieper, and the broadcast merely located the battle as northwest of Chernigov"

Urges Support of Non-Party Move

KELOWNA Oct. 21 (CP)—W A C Bennett, Progressive Conservative Coalition member of the British Columbia Legislature for South Okanagan, issued a statement here today urging support for formation of "a non-partisan United Progressive Party"

Mr Bennett suggested the new party could be supported by all citizens irrespective of affiliations in the Federal field

"The move, which proposes the crystallization of the present Coalition Government into a united group entirely divorced from Federal politics, has the backing of the great majority of the Coalition members of the Legislature," the statement said

Mr Bennett said that such a move would require Premier Hart and Attorney-General Maitland to make a choice between resigning as leaders of the Liberal and Progressive Conservative parties respectively in the province and dropping from the leadership of the Coalition

Rehabilitation Problem for All

Urging that the returned men be safeguarded in every way and stating the work of rehabilitation is not, in his opinion, a community problem, nor a Government problem, but is a problem to be solved by everyone, Major A McFarlane Veterans' Welfare officer for Vancouver Island, delivered a forceful and sincere appeal to members of Rotary Club at a luncheon yesterday at the Empress Hotel

"We can't let these men down," he declared emphatically "Give them a helping hand when they get back They are going to be the backbone of Canada"

Comparing favorably the plans outlined by the Government for returned men of this war with returned men from the last war, Major McFarlane dealt explicitly with each phase of the rehabilitation set-up

"Canada's programme of rehabilitation for discharged members of His Majesty's Forces and what it means to service clubs, business organizations, and the country as a whole" was the title of the address, but the bald statement of facts was only a portion of his message

"Rehabilitation will be as dead as this table" Major McFarlane declared "if it does not have the human element behind it" He advised service clubs to "get away from the material, and see that the human element is preponderant" He told of one organization that has already appointed a welcome committee, and while extolling this as a beginning, Major McFarlane said "we must do more than this, we must meet and follow them up"

The speaker interlaced his message with incidents that had come to his personal attention He quoted the words of an air force pilot, "May God grant us victory when we deserve it." Major McFarlane was deeply impressed by this expression of faith, he said, feeling it was equally applicable to those far from the actual scenes of battle Concluding his remarks, he said "Rehabilitation will be the making of Canada"

President J W Little was chairman, and visiting Rotarians included B Neale, Quebec H Green Long Beach, R D White Seattle D Milne, Vancouver; J Arnold Bermuda, R Lewin, Calgary, and L Crosby, Banff Sgt. Crawford Burns, who has been with anti-aircraft in Alaska for the past year, was also present.

Back to Old Days Declares Meighen

VANCOUVER Oct. 21 (CP)—Rt Hon Arthur Meighen, former Conservative Prime Minister of Canada, said today at a service club meeting that what Canadians need most of all is to learn the old lessons of toil, honesty and thrift.

He called upon them to cast aside the reform measures of modern government and to return to the "hickory stick" days of the past century

Mr Meighen declared that modern government plans for social security couldn't possibly assist in bringing order out of chaos in the nation He compared policies in the United States and Great Britain, and said that despite the huge sums spent on American Government projects in an effort to relieve unemployment Britain had improved her financial position to a greater degree and had done more for the unemployed than had the United States of America

"This thing of making work for people for the sake of making them work to eliminate unemployment is a delusion" Meighen said

"The usual thing we read that society will no longer tolerate unemployment is as vain and as senseless as saying society will no longer tolerate disease," he added.

Russian Front

Continued from Page 1

The Germans still hold the northern part of Melitopol, the Russian bulletin said, after nine days of street combat.

Fanning out over the steppes in the Dnieper loop the Russians captured Annovka, 23 miles north of Krivoi Rog in a sweep that has carried them 55 miles south of Kremenchug on the Dnieper Petrovo, ten miles to the northeast, also fell, and Alexandrovka 50 miles to the northwest also was a prize seizure.

Alexandrovka is only 16 miles from the vital rail junction of Znamenka, which controls east-west and north-south communications in the vast area, where huge German forces risk entrapment Once Znamenka is attained the Russians can turn west toward Kiev and south toward Nikolaev on the Bug River, where it empties into the Black Sea

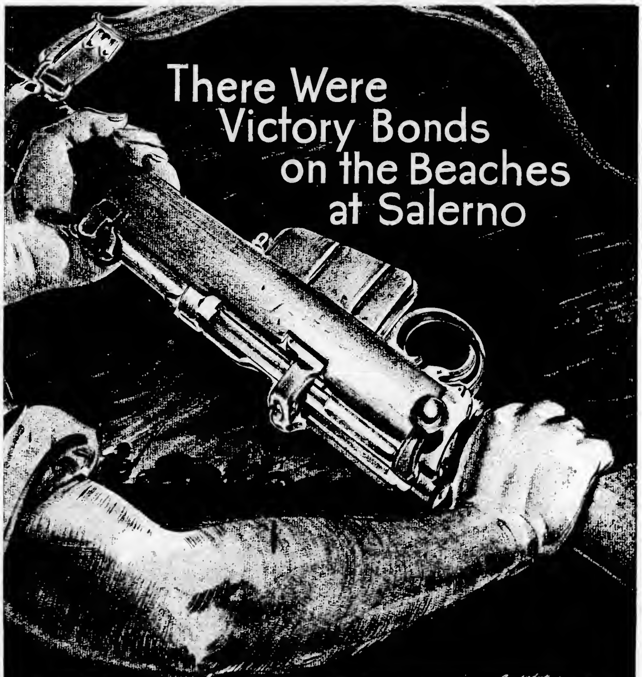

SHOOT DOWN 52 NAZI PLANES

Soviet airmen shot down 52 planes today in supporting the land drive the bulletin said, and great quantities of equipment were seized and [illegible] tankmen routed an entire German regiment.

Moscow dispatches said the Russians already had established air bases west of the Dnieper in the Kiev sector and a Soviet commentator, Col Nikolai Akimov disclosed that "more and more crossings of the Dnieper" are being effected

Battering their way toward Rechitsa 28 miles west of imperiled Gomel in Lower White Russia the Russians captured six more German strongpoints and killed more than 3,000 of the enemy the communique said.

In an apparently belated reference to the Russian sweep across the Middle Dnieper north of Kiev

On the blood-drenched beaches of Salerno . . . on the shell-torn fields of Sicily . . . wherever there have been Canadians carrying the war to the enemy, *there*, too, have been Victory Bonds.

The Bonds do not appear "over there" as you see them, neatly folded paper, cold figures, coupons attached.

The tin hat that deflected a bullet and saved Bill's life; the grenade that Frank hurled in the faces of the foe; the aircraft, swooping from the clouds like an avenging eagle; the monster tank, smashing, crashing through the enemy's lines . . . all these are Victory Bonds, bought by you, and you, and you . . . Victory Bonds translated into the vital "tools" of Canada on the attack.

And why buy *more* Victory Bonds? Well, there will be more Salernos, more Sicilys, more sacrifices, and more tools needed, before the last glorious goal is reached.

Speed the Victory! Buy Victory Bonds—Now!

An Empire's Loss

The death of Admiral of the Fleet, Sir Dudley Pound, with tragic suddenness was announced from London yesterday over the British Broadcasting Corporation, less than three weeks after the former First Sea Lord had returned from staff conferences at Quebec at which he had taken a heavy cold. He died in a London hospital without recovering from complications which were the immediate results of the chill. So, under tragic circumstances, passes one of the outstanding naval figures of our time, a man who had been a tower of strength not only to the Royal Navy, but also to United Nations' counsels in the war.

Only 66 years of age at his death, Sir Dudley had been in the Royal Navy since he was a boy of fourteen, with a record of 52 years of continuous service which was broken only a few days ago when he retired on account of ill health. His contributions to the growth and development of the Royal Navy in those tense years immediately preceding this war were well known, as was his masterly handling of the Mediterranean Fleet until he handed that command over to his successor, Admiral of the Fleet, Sir Andrew Cunningham, who is now First Sea Lord of the Admiralty.

On this side of the Atlantic Sir Dudley was well known and universally esteemed. He had been at Washington, D.C., and elsewhere on a number of occasions in connection with staff conversations and formal parleys. He was in the party that accompanied Mr. Churchill to Quebec for the latest Allied discussions there, and it was on this last mission that he contracted the cold which apparently developed into serious and finally fatal results. Bright as were his many achievements in two wars, both at sea and on shore, Sir Dudley Pound will be missed for his counsels and by those who remain in supreme command of the United Nations' cause. The British Empire has sustained a heavy loss.

Bonds by Budgeting

People who have furnished their homes, bought their radios, financed their cars and obtained many other enjoyed possessions on the installment plan in years gone by will find today that the same principle can be made to operate successfully in the purchase of Victory Loan Bonds. For many a Canadian household a budgeted savings plan is one which may fit in more readily with the express requirements of the family than a single cash outlay at one time. Victory Bonds may be bought in either way, and in both they remain the same substantial form of investment.

Victory Bonds may be bought on very easy installments. Ten per cent of the value down and the remainder in a system of regular installments will buy a Victory Bond just as readily as it used to buy a radio or a complete set of household furniture. In this way the outlay at any one time is not great, and the habit of saving is formed without much sacrifice to those who are accustomed to budgeting in their daily lives. For individuals in receipt of a steady and reliable income, the installment plan has this advantage: It permits of a much more considerable investment, without undue strain at any one time.

By installment buying and budgeting many a household could afford to take on a much greater investment programme than would be possible if all were obliged to pay cash in advance for the entire value of the bonds. The same payment that buys a $50 bond outright will meet the down payment on a $500 bond, where the balance can be arranged on terms that are within the reach of the investor. By taking the larger amount where they can do so individuals will be doing themselves a good turn and helping Canada at the same time. Installment savings are a practical form of investment, and money so saved will come in handily after this war when new goods are on all shelves.

A Daring Bid

Coming on top of a counter-offensive which pried the Germans out of anchor point after anchor point on the Eastern Front and drove them back across the Dnieper River, the powerfully mounted and developing Russian stroke against the Dnieper River bend is focusing close attention in the war. It is a daring bid ... powerful and growing desperate. Should it succeed, it would be a master stroke, capping a long, and for the Germans a disastrous, year in the East. The deep thrust behind Dniepropetrovsk will bring a rapid crisis in the battle. Both forces are throwing their weight into a decision which could affect the whole course of the war.

Three things may well have influenced the German retreat to the Dnieper line. Pressure of Russian arms and the loss of rail lines; the necessity to shorten a line 1,700 miles in extent, demanding tremendous outlays in men and materials both on the ground and in the air, and memories of Tannenberg, where Russian forces in the last war were split and defeated separately. There is no doubt that the Germans, once across the Dnieper on the west bank, tried to smash the Russian drive against its own bridgeheads—tried and failed.

Recoiling after that failure, the enemy was unprepared for the quick follow-up made by our Allies in central and southern regions of the line against Gomel, Kiev and Kremenchug. They attemmed two thrusts, but their lines gave way in the south. It was there, behind Dniepropetrovsk and outflanking it, that the Russians threw in their strongest effort. Yesterday the wedge was deepening, and German efforts to pinch off its corridors were failing. A decision in the whole southern region appeared imminent, with the Germans deeply compromised, facing disaster on the one hand and on the other the stiffest battle of the year to hold ground upon which depend all their positions in the Crimea.

Mr. J. O. Cameron

The passing of Mr. J. O' Cameron, a pioneer lumberman of Victoria and Vancouver Island, will make another gap in the ranks of those who have contributed to the upbuilding of this community for the last thirty-six years. An early member of the original Board of Trade when it used to meet in premises on Bastion Street, Mr. Cameron was one of the group of stalwarts who had an active part in the development of Victoria from the year 1907 on. President of the Board of Trade in 1919, he continued in active association with the Victoria Chamber of Commerce when that organization took its place, and was besides identified with the Canadian Manufacturers' Association and numbers of other business groups.

Born in Sparta, Tennessee, in 1867, James Oscar Cameron was educated as a barrister, and practised for a number of years in that profession before coming to Victoria 36 years ago. On arrival here he became interested in the lumber business and founded the Cameron Lumber Company, of which he was president up to the time of his death. He was also chairman of the board of directors of the Cameron Investment & Securities Company, Ltd., and associated with many other business interests. His death removes one whose knowledge of the community was wide, and whose contributions to its development had been outstanding over a long period of time. The sincere sympathies of this community will be extended to those who stand bereaved.

Labor Takes a Hand

The announcement that organized labor will present candidates for election at the Victoria municipal polls will be taken as a sign of a healthy and a genuine interest in this, a department of public business. It should be remembered, however, that municipal business is limited, and does not extend to monetary and other policies which could only be effected by a much greater authority, backed by Parliament in fact. Unquestionably there is room in Victoria civic affairs for representation on behalf of organized labor. The road to it is the same as for everybody else: openly and straightforwardly through the polls, where the public is the first and the final judge. It would be a mistake to make a "party" affair out of a civic election, nor is there any need to do that. Let Labor put forward good men, and if they attract the public's favor they, too, will go in.

Victoria's Hospitality Committee has still room for a number of good Canadian homes that will offer the privileges of civilian life for a few hours or longer to men and women who are serving this country in uniform hundreds of miles away from their own homes. A friendly meal in home surroundings, an evening's music, a game of cards, these are the things that help to lighten life that is drab enough in barracks.

If the Dominion Government is really concerned over newsprint shortages in Canada, they could do much to curb the useless flood of publications that continues to pour out from public offices all over the country in an inordinate bid for publicity for quite negligible undertakings, considered against the real needs of the day. All newspapers in Canada put together use less than 3 per cent of Canada's newsprint output.

The Donkey

When fishes flew and forests walked
And figs grew upon thorn,
Some moment when the moon was blood
Then surely I was born.

With monstrous head and sickening cry
And ears like errant wings,
The devil's walking parody
On all four-footed things.

The tattered outlaw of the earth,
Of ancient crooked will;
Starve, scourge, deride me: I am dumb,
I keep my secret still.

Fools! For I also had my hour;
One far fierce hour and sweet:
There was a shout about my ears,
And palms before my feet.

SIGNS AND PORTENTS

Geese are going South! Winter is on its way.

The birds are never wrong. Year in, year out they get the migratory urge and head South for their Winter feeding grounds and North for their Summer breeding grounds just at the right time for their purposes without benefit of calendars or other aid than instinct, something that the lower animals seem to have in a greater degree than humans to compensate them for their presumably inferior intelligence and brain power.

And so it is that when you hear the honking in the skies as long skeins of wild geese pass over the city en route for the other side of the boundary and warmer Winter climes you may be quite sure that colder weather is creeping down from the freezing North.

Other natural signs which are sometimes relied on for reliable prognostication are in truth not always so trustworthy. The last time there was an unusually heavy crop of red berries on the barberry bush everybody was telling us that it meant that a hard Winter was promised us. But there came a flock of migrating robins, cleaned the whole bush off in a day or so, and, as a matter of fact, there followed a Winter which could not be described in any other way than decidedly "open." There was little or no frost or snow that season and it would not have meant nearly so much hardship if some of our coal bins and woodsheds had been unreplenished that year as it has in some later one, when, although the berry crop was light, the cold snap which caught so many of us unawares was decidedly a "corker."

This year there is an abundance of berries on that bush, not yet raided by the birds, and the heaviest crop of acorns that the greenkeepers can remember on the golf links, and they are the men who notice such things particularly for very good reasons of their own. That, we are told, is another sign of a hard Winter on the way. Here's hoping that the prophets may be wrong, because the fuel problem is by no means satisfactorily solved yet from all accounts, although the powers that be may have done their best to minimize the prospect of real hardship for coal and woodless families. Transportation is still a serious question for the fuel companies.

Although the heavy rain of last week-end ceased for a while and we were treated to some very fine Autumn weather for the first half of this week, the power companies which needed precipitation badly had no reason to grow alarmed. For three successive nights there was a white frost, and the saying "Three white frosts and then rain" was fully justified this time at any rate. The streets are wet, the lights are on in the stores and offices and the outlook this morning from the office window is "demned damp, moist and unpleasant" compared with what it was the three days before.

Other weather-wise sayings of Old Country folks are not always found to have equal truth or significance in this land. For instance, many a time when one has retired for the night, expecting to wake to a sunny dawn on account of the rosy sunset which delighted the eyes the evening before, one has awakened to find the rain pouring down and that one might as well forget about that game of golf or tennis and settle down to business. But in our childhood some of us were taught as though it were almost gospel—"Red sky at night is the shepherd's delight; red sky in the morning is the shepherd's warning."

There is always one rather common form of forecasting, secondhand as it were, a frosty Winter, which particularly infuriates "The Indians," affirms some wise person in a confidentially low tone "say that we are going to have a hard Winter."

What Indians, where and when? And who interviewed them to get their views on the matter?

The best plan would appear to be to make as reasonably sure as possible that the coal bin is adequately filled, because, after a great many years spent on this Coast, this observer for one has come to the conclusion that you never can tell beforehand whether the Winter will be an exceptionally hard one or not. The cold snaps always come suddenly and with little warning, but the average Winter here is decidedly on the mild side if wet. The next three months are the wettest as a rule. Look out for snow and ice toward mid-January and never feel sure that it will not come before the end of February.

The geese are going South. Winter is on its way but that is not to say that Victoria will not enjoy her usual temperate climatic conditions for the time of year.

Letters to the Editor

No letter to the Editor will be inserted except over the proper signature and address of the writer. This rule admits of no exception. No letter should exceed 300 words in length.

AN EXPLANATION

Sir,—May I request the courtesy of your columns to attempt some sort of a reply to two widely divergent criticisms that have appeared in your paper, over something I am supposed to have said at a recent meeting in the city?

A letter appeared in your correspondence columns, stating I had greatly misrepresented the people of London in this war: that they were not flocking to the churches (as I was supposed to have said). Last Sunday an article—which I have been told also refers to this statement criticised the (purported) statement—that this war had not at all brought the British people any nearer to Our Master.

Perhaps I had better, therefore, proclaim exactly what I did say: that the blitz days on London had indeed brought a great revival of true interest in real religion to Londoners; but that this, as yet, had not at all meant that the churches were being packed to overflowing. I added to this—that therefore the churches were on trial today as never before, and that they had the tremendous responsibility of interpreting the Christ and His Teachings to a world that was hungry for Him.

The fastest recorded speed of an R.A.F. carrier pigeon is 68.7 miles per hour . . . Gasoline rationing has resulted in a large number of two-wheeled caleches and horse-drawn victorias being pressed into service in Quebec . . . No alarm clocks are now made in Australia, and imported ones are off the market . . . Hitler is supposed to wear his odd moustache to hide a scar left by removal of a mole under his nose . . . Frenchmen apparently have very little faith in Vichy paper money. A Louis D'Or worth $3.86 in 1914 currently sells for paper francs with a face value of $965 . . . A survey of tailors and clothing store proprietors at Regina resulted in a unanimous opinion that men would not return to trousers with cuffs. Relatively few cuffless wartime pants made their appearance here . . . From The Brandon Sun: "Over here we measure the hardships of war by the amount of gasoline left in the tank" . . . Since 1939 the quartermasters' stores in England have received 3,000,000 pairs of boots from the army, 400,000 from the navy and 715,000 from the air force to repair . . . From Look: "Japanese have quit the offensive and taken the defensive psychologically as well as militarily. However, we cannot count from now on until the end on cheap victories. Although Japanese conquered enormous oil deposits, their refineries are thousands of miles away from Japan, and they established a vulnerable tanker line. They entered the greatest war of all time with inadequate shipping and inadequate shipbuilding facilities. Every weapon in Japan's arsenal, warships, planes and even sidearms, sacrifices hitting power for manoeuvreability and speed, and Japanese have done nothing to correct it. They are not only neglecting to change their weapons, but are incapable of doing so. Their industries are simply not able to change designs while maintaining a flow of equipment."

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table the tide rises or falls continuously during two successive tidal periods without turning.

To find the depth of water on the sill of the Esquimalt Drydock at any tide, add 30 feet to the height of high water as above given.

C. H. Millard Urges United Labor Front

The United Steel Workers of America were interested in the same constitutional objectives as other labor groups: equal opportunity, economic security, and "production partnership with the boss," C. H. Millard, Oshawa, Ont., national director of the Steel Workers, and C.C.F. M.L.A. for Ontario, told the Trades and Labor Council here Wednesday night.

He urged co-operation of all labor and agricultural groups. Political action would then be more effective, he said, both for the good of labor and for the community.

Mr. Millard said that British Columbia's resources should be developed, and a steel mill started regardless of the profit in it, if there was a use for steel in the province. With the abundant resources at hand, he said he regretted that the steel mill proposal had been made a political football for so many years.

Colin Cameron, C.C.F. member, who spoke earlier, urged production for consumption, not for selling, which he said was a fallacy. The present period of prosperity was due in large part to the consumption by warfare, which created demand, he said.

Public projects such as building of highways, for the postwar period, have only a temporary affect, ending in unemployment, he said.

"We must all concentrate on production for consumption," he said, "and the people of the world would have to follow the same policy, if the present crisis were not to be repeated."

RESOLUTIONS ADOPTED

A request for a yellow line to extend along the main highway from Victoria to Patricia Bay, to offset the driving hazard in Winter months, brought a promise of immediate attention from the Department of Public Works, the secretary reported.

Resolution by the Victoria Chapter of Credit Unions, sent to the Dominion Fuel Controller, asking for fuel rationing throughout Canada, was endorsed.

Application for affiliation by the Saanich section of the Greater Victoria Teachers' Federation, was accepted.

ing under such great naval men as Admiral of the Fleet Earl Beatty and Admiral of the Fleet Lord Keyes.

On him fell the responsibility for the Atlantic convoy system in the darkest days of the submarine campaign. For the greater part of the time, naval commitments in various parts of the world made it impossible to give convoys adequate protection, but Sir Dudley never wavered from his belief that the navy would win through.

Naval men agree that it was largely his genius that was responsible for the present success over submarines.

Sir Dudley was born August 29, 1877, the son of an English lawyer, Alfred Pound, and a Bostonian, Miss Elizabeth Pickman Rogers.

Sir Dudley's wife died last July 20. They had two sons and a daughter. Both sons were with him when he died. One of them is Lieut. O. D. Pound, D.S.C., a destroyer commander.

Hall to Stay Open For Voters' List

The City Hall will be open from 7 to 9 o'clock next Wednesday, Thursday and Friday nights for the convenience of those who wish to register for the civic voters' list, or who are uncertain if their names have been included.

Voters may also register at the City Hall from 9 to 5 o'clock daily except Saturday, when the hall is open from 9 o'clock until noon.

Electors will be asked on December 9 if they are in favor of returning to a form of police commission elected by public ballot. Commissioners at present are elected by ballot from among members of the City Council.

Board Considering Larger Beer Quota

The liquor allowance for November and December will be one quart each month, W. F. Kennedy, chairman of the Liquor Control Board announced yesterday but no change in the allowance of beer can be determined until the end of this month.

Mr. Kennedy said that an attempt will be made to build supplies of beer in order that some beer may be sold with each quart of liquor in December for the holiday season.

Whether this can be done he said depends on the result of a check of stocks at the end of the month.

According to Culbertson

The credit due a declarer for playing a hand beautifully is in no way reduced by the fact that his opponents could have offered stiffer defence. The very essence of bridge is to outmanoeuvre the enemy, and to make it not only easy but persuasive for him to make a mistake. For example:

West, dealer.
Both sides vulnerable.

The bidding

West	North	East	South
1 ♥	2 ♦	Pass	4 ♠
Pass	Pass	Pass	

West opened the heart ace and, on sight of dummy, quickly shifted to the six of clubs. So far, this was shrewd defence, because now declarer could not establish the diamond suit and later reach it for discards. West, upon winning the first diamond lead with the ace, would return another club, and there would go dummy's vital entry.

South considered putting in the club jack on West's hand, but he was morally certain that West would not have led a club if he had held the queen. Hence declarer ducked in dummy and won with the king.

At this point, most players would irrevocably ruin their chances by drawing trumps, but this particular South made no such error. Upon winning the second trick with the club king, he led the low diamond toward dummy. West judiciously put up the ace and, hewing to his plan, returned a club. Declarer, again declining the finesse, won with the ace, then entered his hand with a trump and cashed the ace, king and queen. (West had played the ten-spot to prevent any miraculous finesse.) Two diamonds were discarded from dummy on these plays, and another diamond when declarer next threw East in lead with his high trump. Obviously enough at this point East could have laid down the club queen for the setting trick—but he didn't know that he could! From his point of view it appeared that West, not South, might have the remaining club and that if East returned the club queen, declarer would ruff.

I am not saying that this was sound analysis on East's part, I am merely reporting the facts. East decided to return a heart. Declarer won with the queen and cashed his remaining trumps, discarding clubs from dummy. On the last trump, East was "fixed." Actually, he let go the club queen and thereupon declarer could cash the club four. It would have been equally satisfactory if East had kept the club and reduced to one diamond, because then declarer would have collected two diamond tricks from dummy.

British Meet Nazi Challenge

In ten months Britain provided 1,360,000 ship tons of supplies and equipment and 2,170,000 tons of construction materials for American troops stationed in the United Kingdom, Sqdn. Ldr. C. L. Goode, R.A.F., said before a Lions luncheon meeting Thursday at Spencer's, in telling how 48,000,000 free people, already saddled with enormous commitments answered the challenge of 80,000,000 drilled Nazi industrial serfs, who had several years' start "with a whip behind them."

"Britain indeed delivers the goods," he said, and in spite of drastic rationing at home, is sending clothing of all types to the value of $15,000,000 to Russia. "Large consignments have been sent out and will be followed by others as shipping becomes available.

"Out of the thousands of ships convoyed by the British Navy, less than one out of every 200 has been lost. In 1942 Britain sent to battlefields abroad 9,781 planes, more than four times the number she imported, and 3,000 tanks, 15 times the number imported. Eighty-seven per cent of R.A.F. planes operating from home bases and 75 per cent at bases abroad are British made," he said.

NATION OF SHIPBUILDERS, ENGINEERS

"We are a nation of shipbuilders, iron founders, engineers and mechanics."

Sqdn. Ldr. Goode paid eloquent tribute to the men of the merchant marine, to whom over 2,000 medals had been awarded and thousands of whom had lost their lives. Germany "never made a bigger mistake than when she threatened these tough, stubborn, humorous men, that they would drive them off the sea. Twenty-two hundred British merchant ships are still at sea."

Turning to the home front he said, "We have actually made more profound social changes moving toward equality than any other power engaged in this war. We are ready to play a great part in the truly civilized world of a fully co-operating people, invigorated by freedom and a hard-won deliverance."

Sqdn. Ldr. Goode was introduced by Arthur Surr and thanked by E. L. Tait.

R.A.F. Men Back Loan Drive Here

Notwithstanding the high British income tax they are required to pay, all ranks of a Royal Air Force station on Vancouver Island are giving whole-hearted support to the Fifth Canadian Victory Loan, and expect to double their $20,000 quota before many more days of the campaign have passed.

At the end of the fourth day of the drive, the British airmen had subscribed close to $32,000; or 160 per cent of their quota.

"We enthusiastically are trying for 200 per cent," said Flying Officer L. S. MacLachlan, officer in charge of the loan campaign on the station. "The R.A.F. men here feel that supporting the loan is their duty as well as a fine opportunity to save for the future."

In the last loan campaign, the station had a $10,000 objective which was passed by more than $5,000 when final returns were made. In the present drive, the higher objective was met with greater support.

The men of the station have been divided into four groups under Squadron Leader O. Jonson, Flying Officer A. L. Wilkinson, Flying Officer G. McLeod and Warrant Officer M. Day. Each have passed individual quotas set for them and are competing for the largest over-subscription.

B.C. Fishermen Plan to Protest

VANCOUVER, Oct. 21 (CP).—Opposition of British Columbia fishermen to the practices of United States otter trawlers operating off the Canadian coast will probably be one of the topics of discussion when fishermen meet Hon. Ernest Bertrand, Minister of Fisheries, following his arrival here at the beginning of next week.

Otter or "beam" trawlers are boats which operate with big nets, scooping up everything from the floor of the sea.

United States otter trawlers have increased in the past year or two and some are now fitted out with large refrigerators. This means that they can catch large quantities of fish like halibut and cod, fillet it and store it and the livers aboard the craft, discarding the scrap material.

A meeting of the Otter Trawlers' Union of Seattle will be held in that city November 28 to discuss the catching of halibut. Following this, a meeting of the Deep Sea Fishermen's Union of Seattle will be held, and the Fishermen's Union of Vancouver has been invited to send delegates.

The question of how much halibut the otter trawlers should be allowed to catch is one of the important factors, a matter which will concern the International Halibut Commission.

CAN CATCH MUCH MORE

British Columbia fishermen point out that the United States otter trawlers can catch many times the amount of fish that hook-and-line halibut boats can take in a given time, and the otter boats thus get much more of the fish.

Few otter trawlers are at present operating in the British Columbia fishing fleet, but they are expected to increase considerably in the near future. Canadians feel that they may as well compete with United States boats by utilizing the same type of gear.

Another complaint made by British Columbia fishermen is that the otter boats permanently damage the feeding grounds of the fish by scraping up everything.

Some of the bitterer opponents of the United States otter trawling methods compare them with the use of "floating canneries" by the Japanese before the war.

A good indication of the rapid growth of the United States otter trawl fleet is the fact that at the beginning of the war otter trawl landings in Seattle averaged from one-half to 2,000,000 pounds of fish a year.

During 1943 well over 20,000,000 pounds of fish have been landed by this fleet in Seattle.

NOTICE TO MARINERS

Mariners are advised that the fixed span of the Kitsilano Bridge, False Creek, will be removed and replaced to allow a vessel to pass out into English Bay. The lifting scows will be placed under at 06.00 hours, October 21, until 06.00 hours on October 22, when the passage should be clear again. Mariners should use extreme caution in this vicinity during the above mentioned times and no tows of logs or scows should obstruct in any way or hinder the passage of this large vessel to sea.

Givenchy Battery Goes Over Top

Hoisting their Victory Pennant on the fourth day of the Victory Loan drive, the D.E.M.S. Battery at H.M.C.S. Givenchy have exceeded their quota of $2,500 and have subscribed to date $4,000. These men—Defensively Equipped Merchant Ship ratings—are based in the Manning Pool at this R.C.N. establishment awaiting their merchant ships to arrive. They serve as gunners.

Canvassed by Leading Seaman A. A. Lesiham, R.C.N.V.R., from Regina, there appears to be no let-up in subscriptions as these heroic gunners of the seven seas continue their support of the Victory Loan.

Patroling the tough West Coast seas, the Royal Canadian Navy Fairmile, ML-069, arrived in this West Coast port yesterday and announced they were ready to over-subscribe their $900 quota, and promptly took $1,350. The ML-069 is under the command of Lieut. R. Francis, R.C.N.V.R., of Halifax, and his 19-man crew represent practically every province in Canada.

Also arriving in port, a Royal Canadian Navy mine sweeper steamed into her berth and announced that she had subscribed 40 per cent in excess of her quota.

This husky fighting ship of the R.C.N. faces the foam-curdled seas of the Canadian West Coast, and her enthusiastic response has emphasized the crew's intention for a 100 per cent effort. The ship is under the temporary command of Lieut. H. H. Rankin, R.C.N.R.

Dives Into Sea To Rescue Woman

VANCOUVER, Oct. 21 (CP).—P.O. James Gordon Noel, 20, of Vancouver, dived from the deck of the Ss. Princess Alice into the cold waters of Burrard Inlet and rescued a woman who had fallen overboard yesterday.

Noel, stationed at a Royal Canadian Air Force station at Pearce, Alta., and now home on furlough, was returning from Victoria. He threw off his tunic and dived over the side when he noticed the woman overboard. Both were picked up by another boat.

Police said the rescued woman, whose identity was not disclosed, apparently was seized with a fainting spell as she stood at the stern of the boat arriving from Victoria.

The woman was taken to hospital and Noel to his home.

WRITING MEANS RECEIVING

Both insignia and unmarked stationery "go over big" with service people. Post exchanges in camps and bases do a thriving business on this single item, yet the demand nearly always exceeds the supply. The urge to be popular at mail call isn't limited to age or rank, and it is a rare soldier, male or female, who doesn't use a good deal of his or her precious time writing home—not alone for the pleasure of the activity, but in anticipation of the answers.

So, no matter how many names are on your service gift list, remember you are making an easy and satisfactory choice when you select stationery gift.

What Today Means

"LIBRA"

If October 22 is your birthday, the best hours for you on this date are from 11 a m to 1 p m, from 3 to 5 p m, and from 9 to 11 p m The danger periods are from 8 to 11 a m from 7 to 9 p m and from 11 p m until midnight

It might be well to refrain from expressing a dislike for anyone that you do not know well, for you may later on discover they possess many traits that you will greatly admire Be careful that the spirit of defeatism does not affect your optimism for there is apt to be some widespread false propaganda afloat today A good day to remember that no race, creed nor color can be entirely free from having traitorous Judases in their midst ready to commit any crime in their lust for money or in the hope of furthering fanatical ideas This is a time when any kind of military information should not be discussed publicly or with chance acquaintances Married and engaged couples and those whose matrimonial plans are in the making may discover that custom should change with the times if they are not to prove hindrances when it comes to making plans

[illegible] your birthday Mother Nature has a world of pleasure and blessings in store for you if you will only cultivate her close acquaintance [illegible] and the more you spend outdoors the better off you will be If you will give night the chance to revitalize you the day will provide you with innumerable ways and means to keep busy amused and satisfied with life in general As an instructress personal director social welfare worker modiste milliner specialty shop operator business manager trained nurse or by lending Uncle Sam John Bull and Uncle Joe a helping hand to clean up the mess that Hitler and his satellites have made in this world of ours, you should be more than satisfied with your results and earnings Under normal conditions there is every indication that your matrimonial affairs will be conducive to your having your full share of nuptial happiness

The child born on October 22 should possess unusual creative ability and a remarkable amount of appreciation for things of artistic worth Instinctively Libra's children quickly recognize the difference between right and wrong, and have sufficient strength of character not to succumb to any temptation that the latter may have to offer Being quick to grasp opportunities presented in them, these youngsters have seldom any difficulty in making their way through life successfully

If a man and October 22 is your natal day you are probably a firm believer "that discretion is the better part of valor" A well developed sense of business or professional ethics will probably win you the confidence and respect of your associates As a dentist physician, jurist, journalist, author, actor, educator, business executive engineer, architect, theatrical man, musician, artist, lecturer, sales agent, or helping to carry your country's flag in victory you may receive well merited recognition and a good start on the road to prosperity.

McKenzie, Mrs D Lysing, Mrs. C W Chapman, and Misses Mildred Gardiner, Jean Wills, Ruth Whiting, Evelyn Wigmore, Trudie Borman, Alice Moolin Irene Hagen Dorothy and Gail Cronk.

Shawnigan Offers Accommodation

Owing to the fact that the mill at Shawnigan Lake has closed down there are a number of houses and cottages available for rent in that district, Mrs W F Rayfuse manager of the Housing Registry said yesterday.

Mrs Rayfuse pointed out that although it was not feasible for persons working in the city to live so far from town, retired people or wives whose husbands have left Victoria could make use of this accommodation

Asking that more Victoria citizens open their homes to give shelter to essential war workers and servicemen's families who must live in Victoria, Mrs Rayfuse emphasized the fact that shared accommodation that is, accommodation in a private home does not come under the W P T B Order 294 in respect to notice to vacate but that persons renting portions of their own home come under the provincial laws which allow a week's notice if the rent is payable weekly and a month's notice if the rent is paid by the month.

Mrs Rayfuse said that members of the service auxiliaries are acting as volunteer inspectors to visit accommodation listed with the registry, but that more were still needed, particularly in the Gorge, Hillside, Oaklands, Parkdale, Garden City, Cloverdale, Portage Inlet districts

Solarium W.A.

At a meeting of the Solarium W.A. held on Thursday afternoon in the Solarium office, Pemberton Building, the members were unanimous in their desire to support the Local Council of Women in the move to establish a mental hospital in Victoria. Mrs. A. McAllister reported on the recent meeting of the council. The president, Mrs. J. Bayliss, welcomed one new member to the auxiliary and expressed gratitude and appreciation to the Shirley W.I. for the donation of eleven pairs of girls' pyjamas and ten nighties. The knitting convener reported that as wool is so scarce, ready-made socks were to be purchased for the Solarium and the sewing convener reported that 15 garments had been completed. The auxiliary greatly appreciated the offer of the Schubert Club to put on a concert to aid the work and this event will take place next Spring. Three groups were formed to cope with the Fall sewing and the work will begin next week.

TORONTO, Oct. 21 (CP).—Rev. Lydia Gruchy, the first woman ordained as a minister of the United Church of Canada, is leaving her post as executive secretary to the committee on the Deaconess Order and Women Workers to accept a call to the pastorate of a home mission field in Naicam-Spalding, Sask.

Women's Institutes

COLWOOD

Plans for the dance to be held on Friday at 9 p.m. in the Colwood Hall in aid of the fund for parcels for the local boys overseas were arranged at a meeting of the Colwood Institute on Wednesday afternoon. Mrs. F. A. Parker will convene the refreshments. Mrs. E. Emery presided at the meeting and letters of thanks were received from Mrs. V. B. Robinson, of the provincial board, for a donation of $100 for the W.I. Queen Elizabeth Fund, from the Solarium for $25 to be used for kitchen utensils, and from the Medical Aid for China Committee for a case of clothing.

LANGFORD

A meeting of the Langford Institute will be held on Tuesday at 2 p.m. in the Institute Hall, Dunford Road. Mrs. T. Millward, W.I. secretary, will convene the glove-making classes. Mrs Fleming, of the Local Council of Women in Victoria, will tell the institute members of the Local Council's work on Tuesday.

Drama Association Re-elects Officers

Major L. Bullock-Webster was last night re-elected president of the Provincial Drama Association at the annual meeting in the Empress Hotel.

Ross Lort, Vancouver, was re-elected vice-president, Harold Hinton, treasurer. W. Crawley was named recording secretary, and Dorothy Davies, corresponding secretary, all unanimously.

In his report Major Bullock-Webster spoke of the splendid co-operation of the Department of Education and of Hon. H. G. T. Perry especially. Activities of the group which numbered 1,050 members, included sending out 16,020 letters, parcels, etc., all over the province, and the loaning of 1,370 plays, books and reference volumes. Ten district associations, 77 affiliated adult groups, 177 school drama groups, 17 in private schools and 15 in Indian schools, showed how widespread was the interest in dramatic activities.

A play written by Miss Margaret Prentice, Sidney Hostess Club, was presented, the following taking part: Cpl. Ed Shepherd, R.A.F., as Capt. Steve Gerow, L.A.C. Alistair Lyle, R.A.F., as Robert Bradley, Mrs. Gervase Chambers as Beatrice Bradley, Mrs. Eileen Napper as Polly, and A.C.1 Keith Rapley, R.A.F., as Jim Bradley.

So-Ed Fall Series to Open Wednesday

The So-Ed Fall series sponsored by So-Ed Club of the Y.M.C.A. is the sixth series of the social-educational programmes presented by this group since the first series was held in March, 1941.

The coming series will open next Wednesday night at the Y.M.C.A. at 7.30 o'clock and will run for six consecutive Wednesday nights.

The programme includes four educational courses, combined with a social and recreational programme. The educational feature covers a variety of interests. The public affairs group will deal with "The Six Pillars of Peace." A citizenship course will discuss the making of a good citizen. An interesting course on practical psychology and a handcraft course under the name of "Spare-Time Skills" complete the educational portion of the evenings. The social and recreational portion of the evening will consist of indoor games and dancing.

This programme is offered for a nominal fee to all young people, 17 years of age and over. Further information may be obtained by getting in touch with the Y.M.C.A. office or members of the So-Ed Club.

Plane Missing

carrying 24 men, R.C.A.F. headquarters said in a statement this morning.

Last word of the missing aircraft was over Mont Joli at 10 p.m. Tuesday when it reported that a low ceiling made landing impossible and that it would head for Dorval, outside Montreal.

"It is feared that due to weather conditions the aircraft crashed into the St. Lawrence River . . .

"Next of kin of the missing men have been notified and as soon as headquarters receives confirmation that notice has reached families of the men names will be announced."

Remoteness of the spot where wreckage has been sighted has delayed search parties reaching the spot, Air Force officials here said. They said more word is expected momentarily.

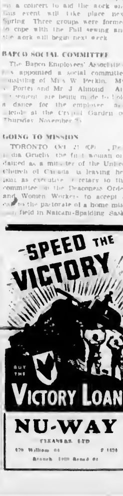

Search for the missing aircraft concentrated one of the biggest searching forces ever gathered in Canada. Yesterday squadrons of planes scoured every inch of the St. Lawrence and its banks between Gaspe and Quebec, including the Saguenay. Naval craft also operated in the hunt, but both surface and air craft were handicapped by thick low-lying clouds.

R.C.A.F. headquarters said the Liberator—the type of plane used in long-range anti-submarine patrols over the North Atlantic—was on a "routine transport flight." Some of those aboard . . . some officers were on their way home on leave.

Stations from which the men came were not identified except as being Eastern Air Command stations.

WOMAN BOUND, ROBBED

MONTREAL, Oct. 21 (CP).—A woman resident of neighboring Westmount was bound hand and foot and locked in her bathroom Monday by two youths who ransacked the house and made off with three diamond rings and money. Loss was set at $7,500. Two youths found in an Ottawa hotel are being detained as suspects.

portant industrially to the German war machine.

Not since its sixth raid of the war—which was as long ago as November 23, 1940—had Leipzig been bombed. Since then many bombed-out plants in the Ruhr are believed to have been transplanted to the more remote Leipzig.

The city is known to have been turning out airplane engines and to be assembling twin-engined Junkers-88 fighter-bombers—the type of craft making nuisance incursions into England—and Messerschmitt 109's, one of the Nazis' two chief single-engined fighters.

The raid undoubtedly disrupted assistance to the Nazis' crumbling Eastern front. Leipzig is one of the world's biggest railroad terminals, with big freight yards on main lines running to important war production centres like Berlin and Kassel—both hit this month—and Regensburg, where Flying Fortresses in August battered another Messerschmitt plant.

the inland anchor of the Nazis' defence line.

Apparently encouraged by his recent successful delaying action, the German commander has brought fresh forces into the fray and is offering greater resistance along the line, particularly on the Eighth Army front.

The brightest spot in the Allied picture was the unceasing activity of the powerful British and American air forces. Wednesday American medium bombers and fighters stretched deep in the Balkans to wreck a roundhouse and locomotives at Nis in Yugoslavia, an important junction between Belgrade and Sofia.

The raid coincided with heavy and sustained air attacks on Nazi airdromes and communications in Central and Northern Italy above Rome. Fighters blew up a German ammunition train west of Ancona.

Hughes Guilty of Manslaughter

NANAIMO, Oct. 21 (CP)—An Assize Court jury tonight found James Hughes charged with the murder of his wife last May, guilty of manslaughter and recommended leniency.

Chief Justice Wendell B. Farris remanded Hughes for sentence at the end of the assizes tomorrow.

Hughes had pleaded temporary insanity and amnesia when testifying at his trial. He said that he knew nothing of the manner in which his wife was killed in his automobile last May 1.

Psychiatrist testimony had corroborated his plea and his two grown sons had testified to the harmony of family relations which were broken only when his wife began to make visits to beer parlors unescorted.

PLAQUE UNVEILED

THETFORD, England, Oct. 21 (CP)—A bronze plaque presented by Americans stationed in England was unveiled here today at the birthplace of Thomas Paine (1737-1809), Pennsylvania editor who was a leader of the independence movement in the American Revolution. The plaque said Paine, a "champion of the rights of the common man . . . lives on through ideals and principles of the democratic world for which we fight today."

Concerned Over Catholic Ruling

MONTREAL, Oct. 21 (CP).—The national committee of the Labor Progressive party said in a statement today that the statement of Roman Catholic archbishops and bishops condemning Communism "cannot fail to cause profound concern to freedom-loving Canadians."

"Their excellencies refer to the urgent need of social and economic reform, which the Canadian people are demanding in the interests of national unity and more effective prosecution of the war," the statement said. "This awareness of the urgency of reforms can only be welcomed. But it is altogether in contradiction with what follows, a disturbing appeal to a deceptive crusade of 'anti-Communism.'

"Such an appeal is calculated to give aid and comfort to the most implacable enemies of democratic reforms, to the disruption of national unity and of United Nations unity . . .

"The Catholic people of Canada cannot but feel anxiety that their spiritual leaders should enter the political domain, as they are doing in this statement, not to condemn the anti-Christian, anti-Canadian doctrines of race hatred, anti-Semitism, corporatist tyranny and Fascist enslavement . . . but to laud the rights of monopoly and seek in the name of 'anti-Communism' to disrupt the people's movement for reform . . .

"They cannot but be alarmed that their spiritual leaders should treat so lightly the cause of the persecuted Catholics of Europe as to sabotage our alliance with Soviet Union at the very moment when the foreign ministers of Britain, U.S.A. and U.S.S.R. are engaged in momentous discussions which will determine the duration of the war."

From Europe

Continued from Page 1

are held, however, there must, says The Times, be an understanding on fundamental air laws and on freedom of the air.

* * *

The Germans are steadily retreating along the whole length of their defence lines in Italy from the Adriatic to the Tyrrhenian Sea. Heavy air attacks have smashed the railway between Ancona and Pescara, thus putting the German supply line to the front opposite the Eighth Army.

Spitfires, says The Times' Algiers correspondent, brilliantly carried out air cover for the British destroyers, which captured one enemy merchant ship in the Adriatic and sank another.

* * *

Turkey is taking the profoundest interest in the Moscow three-power conference, which the Turks, says The Times' Istanbul correspondent, regard as of the greatest historical importance. They consider the heaviest responsibility of the conference's success falls on Britain, whose role after the war is seen as one avoiding European commitments, but as taking the leadership of Europe.

* * *

Two-thirds of the Luftwaffe's fighters are now in Western Europe with one-fifth on the Russian front and one-ninth in Italy. The Luftwaffe, at the expense of its bomber fleets, has increased its fighter strength by more than one-third since the beginning of the year.

Most astonishing successes have been gained by the Red Army in the Dnieper bend and such shattering thrusts have been made into the German positions that deepest gloom prevails in Berlin.

Military commentators there have told foreign correspondents that the present crisis is the blackest hour since Stalingrad. According to The Times' Stockholm correspondent, there is an impression in Berlin of impending catastrophe to the German Army along the Dnieper as the Russians have smashed through the main Nazi defences and are widening the breach southward by a series of furious attacks towards Krivoi Rog, big metallurgical centre.

* * *

The Times Moscow correspondent reports the loss to Germans of 25 miles of strategically important railway between Dnieperpetrovsk and Kiev, which is grave. A new road built by Germans along the right bank of the Dnieper has also been taken from them by victorious Bolshevik forces.

Soviet commanders' tactics are most audacious. They are taking many risks for the sake of surprise and their assaults have already resulted in heavy capture of enemy war material.

* * *

From all Dnieper cities, Germans have driven off the inhabitants wholesale, taking the able-bodied to the labor slavery of Germany and shooting those unable to keep up with the main contingent. Everywhere maximum devastations are attempted including the historic and beautiful city of Kiev where solid stone houses are blown up by the hundreds out of sheer spite.

In enemy-occupied towns all Jews have been systematically massacred.

The Nazis are also wrecking the Crimea relentlessly, preparatory to escape from it across the Isthmus of Perekop. Here too all the inhabi- [illegible] many cattle.

PRISONERS ESCAPE

NEW YORK, Oct. 21 (CP).—Nine hundred prisoners of war escaped from prison camps at Hagen, after an air raid on that Ruhr industrial city and are being sheltered by the local population, the B.B.C. reported today, quoting a proclamation by the mayor of the town. Hagen was raided by the R.A.F. the night of October 1.

Cowichan Golf Club Ceases to Operate

DUNCAN, Oct. 21.—After operating for twenty-three years the Cowichan Golf Club has become a war casualty and ceases to exist on the Indian Reserve as from today. The present officers of which W. Greensides, president, and P. K. Lomax, secretary, will formulate plans for opening another course somewhere else in the district at some time in the future.

The present committee had worked hard to carry on the club, hoping to arrive at an agreement with local Indians for a reduction of the rent, but were unable to do so. The club closes with sufficient funds to meet all liabilities.

Jackie Callura Wins

NEW ORLEANS, Oct. 21 (CP)—Jackie Callura, of Hamilton, Ont., headed back for another crack at the N.B.A. featherweight title he lost last August by decisively whipping Juan Villalba of Havana, Cuba, here last night in a ten-round decision bout.

Izzy Mattes, chairman of the Louisiana State Boxing Commission, said a return bout between Terranova and Callura "probably would be held here within the next three weeks."

PROTESTS PROMOTING

TORONTO, Oct. 21 (CP)—Leslie Saunders, Toronto alderman, said today he had protested to the Canadian Broadcasting Corporation against the radio promotion of Victory Bond sales last Sunday evening. "Selling war bonds at a time when you'd have to stay home from church to hear it!" he exclaimed. "The Government ought to set an example."

Old London taxicabs are being stripped to provide essential parts for operating cabs, thus alleviating to some extent the acute shortage of spare parts.

SPORTS SLANTS

By SID THOMAS

CRIMSON TIDE IS PREPARING TO ROLL

Victoria's Crimson Tide ("Rep" Rugby team to the uninitiated) is preparing to roll again. And Coach Dan Doswell, who guided the squad to the provincial championship and possession of the prized McKechnie Cup last season, confidently looks for his proteges to stage a "repeat performance."

Perfectly reminiscent of the times, the 1943-44 edition will be a streamlined, speedy rugger machine, built for smooth, rapid-fire action, with weight giving away to speed and age stepping aside for youth.

With the nucleus of last season's championship team around which to build the new squad, Coach Doswell is rightly optimistic of his club's chances in competition with Vancouver and Varsity. But, like the popular song bit, "some changes will be made." Doswell is faced with the task of plugging important positions on the squad.

Right at the moment it looks as if the pack will be organized around Sgt. Doug Bray, front rank forward and "hook," who has seen plenty of action in McKechnie Cup play.

Changes are certain in the backfield, with brilliant Alastair Gillespie and fast, tricky Jack Gibbs, smart insides, serving with the Navy in another station. Carlisle, former Naval College halfback, who played "rep" last season, is not around, and Coach Doswell frankly admits that filling this important berth appears to be one of his toughest jobs.

Most pleasing as pregame training swings into full force is the interest being displayed by the players, with more than 28 turning out for practices. We remember when "Rep" coaches were lucky if they had eight or nine players for workouts, and as recently as last season the Crimson Tide never had one full turnout for their training sessions. Perhaps those days are gone forever. We certainly hope so.

RIGHT OFF THE CUFF

Bobby Van Horne, popular and well-known figure in provincial sports circles as an athlete and trainer, is president of Yarrows Athletic Association, and is displaying quite an interest in his new post. A thriving association of 1,600 members, Y.A.A.A. was formed to provide off-shift athletic and social activities for the shipyard workers, and is certainly filling the bill. Bowling, swimming, soccer, basketball, softball, billiards and snooker are the sport activities organized and in operation, while on the strictly social side of the programme dances and concerts are on the bill. This corner thinks formation of such an association will provide good will, help in bringing the workers closer together and give them interests to keep them busy and entertained in their spare time. Congratulations to the officers of Yarrows Amateur Athletic Club . . . We have heard of "grudge" battles in the ring, more particularly in wrestling, and strictly as a means of building up the gate receipts but a correspondent has now brought to our attention a "grudge" match in fivepin bowling. The match was played at Olbson's Bowladrome between Elite Cafe and Seven Up, with the cafemen finishing on the right end of the scoring. Harold Paulding, well-known trundler, anchor man for the Elite Cafe, sparked the team with a three-game score of 742. "Red" Paterson, of Seven Up fame, was low man with 467. But never mind, "Red," better days are coming . . . And while still with the keglers, just a word of congratulation to Quality Meat Market for their three-game total of 3,561, the highest this season.

SNAPSHOTS

Dad and his lad will battle it out for top honors in the Uplands Golf Club Red Cross tournament staged recently, after finishing in a tie. Dad is J. F. Jeffrey and the lad is Frank Jeffrey, and each wound up with a net 66. Be careful, son! . . . In the mail: A letter from Jackie "Ginger" Knowles, R.C.N., overseas, saying hello and telling us he is fine and enjoying life in the Old Country but looking forward to the day when he will be back in Victoria. "Ginger" fought as a flyweight before joining the senior service but has grown into a full-fledged lightweight. . . . Also in the mail a letter from H. W. "Lee" Croft, Sheriff of Pierce County, Washington (no, the sheriff is not after us) telling of the achievements of his son, a paratrooper in Uncle Sam's army, and quite an athlete. Accompanying the letter is a column-long clipping and picture of his son who has won honors in boxing and [illegible] on to say that Pte. Croft's great uncle was Henry Croft, an early settler of Vancouver Island, hence the reference in this column. . . . Yours truly wishes to publicly thank Bill Collins, a frequent visitor to this sports department, for his "Welcome Home" note on my return from Banff. With the message of welcome was one of my favorite stogies (no names, please; free advertising not permitted) and a bunch of flowers which I sincerely hope will symbolize our friendship—they were everlasting. . . . Saturday's soccer match between the V.M.D. and R.A.F. promises to be a thriller-diller, and J. D. (not the redhead but a gentleman in the room upstairs) picks the Old Country flyers to win. Maybe he's right but this corner has been wrong before so don't worry my upstairs friend.

Broda Case Raises Much Comment

Statement of Government Policy Is Urged by Sports Scribes

By CHARLIE EDWARDS
Canadian Press Staff Writer

TORONTO, Oct. 21.—The Broda case raised a storm of sports page comment—much of it urging a statement of Government policy concerning servicemen's participation in major sports and money "gifts" to men in uniform for their sport services.

An Ottawa dispatch says the question of service sports, particularly competition between various districts for outstanding players, is under review by officials. Immediate action is imperative.

The sports public believes players on service teams in certain cities are paid to play hockey. Players have traveled across the country to enlist hundreds of miles from their homes, obviously because they received financial inducement.

The inference is that such players join the army to play hockey rather than to serve as soldiers, sailors or airmen and that they make considerable more money than our fighting men.

Turk Broda brought the problem to a head when the Toronto player failed to obey a Selective Service order to report for military service in Toronto. Broda was taken from a train bound for Montreal where, it is understood, he had received an offer of payment, over and above army pay to play for the Montreal army hockey team.

OFFERED $2,400 TO PLAY FOR MONTREAL

Andy Lytle, of The Toronto Star, says Broda was offered $2,400 in addition to army pay to play with the Montreal army team. Lytle says he is informed the best Toronto Army Daggers could offer Broda was army pay plus a subsistence allowance if he lived out.

Broda happened to receive a lot of unfavorable publicity, but dozens of other athletes have made similar moves without attracting undue attention. The solution lies in Government action to cut off at the source the financial offers to outstanding athletes joining the services.

Another angle is that some prominent service athletes remain in Canada season after season, while less athletic men move overseas. It may be that sports ability is not a factor in keeping these men in Canada but, nevertheless, servicemen overseas resent the fact some do remain in "cushy" jobs at home to play hockey.

A Toronto Globe and Mail editorial states: "The advantage of sports to the services is to keep the men physically fit and mentally alert, but when hockey teams in different centres begin to compete for outstanding players who have received their draft notices, then it is time for the military authorities to step in. . . . If the service can not have hockey teams without offering inducement to players to enlist in certain districts, their disbandment might well be considered. . . ."

EASTERN PAPERS MAKE COMMENTS

Tony Allan, of The Winnipeg Tribune: "From a hockey standpoint, many people will be disgusted to discover that the sham amateurism which has so long prevailed in hockey has been carried over into the service game. Hockey bums are bad enough in peacetime, but in the army they should be anathema. From the more serious standpoint of soldiers serving overseas . . . The pampering of athletes in the army at home is something which can not be condoned."

J. P. Fitzgerald, Toronto Telegram: "If . . . persons in civilian life pay salaries or hand over financial gifts to hockey players in the army it does not go down so well with soldiers who are soldiering and and fighting nor . . . with their relatives back home."

Ottawa Journal editorial page: "Military training in this war is a strenuous thing. We find it hard to see how anybody, if they are engaging seriously in that training can take time out to train for and travel the country to play hockey." The editorial referred to army action in stopping Pte. Johnny Greco, of Montreal, from further professional boxing bouts and suggested the "same principle should be applied to professional hockey players or football players."

Manager Art Ross Has His Worries

Bruins' Pilot Not Yet Settled On His Line-Up—Goalie Problem

By GEORGE BURMAN
Canadian Press Staff Writer

QUEBEC, Oct. 21 (CP).—With the Bruins' first league game against Montreal Canadiens barely more than a week away, Manager Art Ross claims he still has some tall figuring to do before he settles on a definite line-up for the 1943-44 season. Regular Boston players and rookies have been in training since October 13.

After Sunday's exhibition match against the Quebec Aces of the Quebec Senior League, Art was more than mildly enthusiastic about this season's crop of rookies, the majority of whom range from 16 to 19 years.

"They're the smartest bunch of youngsters I have seen in my 30 years in the N.H.L.," he gloated.

Perhaps the Boston pilot's toughest job will be to fill the goaler's pads of Frankie Brimsek, rated one of last season's classiest net-minders, who has joined the United States Coast Guard. Trying out for the position are tow-headed Harvey Bennett, who played last year for the Oshawa Generals, and Quebec's own Maurice Courteau, formerly of the Washington Lions. A third man in the picture is Paul Emile Bibeault, until this season Canadiens' goalie.

REGULARS SLATED FOR DEFENCE BERTHS

On defence, the Bruins have Johnny Crawford, Flash Hollett, Harvey Jackson and Team Captain Dit Clapper of last year's squad. Johnny Wilkinson, last year with the Q.S.H.L. Ottawa Senators, has been teaming with Crawford in drills. Alan Stanley, a 17-year-old newcomer from a Timmins, Ont., juvenile team, is another contender.

Five players are fighting for centre position. Bill Cowley and Don Gallinger remain from last season's team. Three juvenile players from Regina are bent on making a berth, Russell Kopak, 18, Andy Mador, 17, and Joe Schmidt, 16. Joe is a kid brother of Bruins' Johnny Schmidt, now with the R.C.A.F.

Art has a baker's dozen from which to choose his Bruin wingmen. In Sunday's game, Herb Cain and Art Jackson flanked Bill Cowley for the outstanding performance of the afternoon. Other veterans include Norman Calladine, Albert Demarco, Bep Guidolin, Yank Boyd and Oscar Aubuchon. Buzz Boll is out for an indefinite period because of a serious thumb injury.

Among the rookies, one "kid line" that has been going well in practices has included Alan Rittinger, 17, of Regina, and Pat Powers, 17, of Toronto, with Kopak in the pivot position. Three more Regina lads to be watched are Fernie Flamon, 18; Chuck Scherza, 16, and Gordon Blaseson, 17.

Ruggers To Battle

Two Games Billed At Macdonald Park

Naval Cadets, last season's provincial champions, make their final bid to retain the English Rugby honors when they meet the Royal Air Force at Macdonald Park tomorrow. Cadets Wood, Chipman, Cockeram, Manifold, Fox and Sabiston, of last year's team, will be supported by several "surprise packets" among the new men.

R.A.F. line-up will include Flt. Lt. Speirs, their speedy winger, and Jeffrey, "Rep" three-quarter, both of whom were missed in last week's game. With these two stars back in uniform the Old Country airmen should give the Naval Cadets quite a battle.

Army, after last week's success with a depleted team, will be out to make it two straight. Bray and Smith are playing as capable as ever while Bill Gornall and Benny McMillan surprised in the backfield. Young Cullin, McCorkall and Gregg excelled and should give a good account throughout the season. With Doug Pedeo and Art Chapman back in the line-up, the Army promises to be a real threat.

Navy fifteen is something of a "dark horse" as Lt.-Cmdr. Redman and Lt. Coughlan have been somewhat reticent about their sailor lads. Consequently the silent Navy may spring a surprise on Saturday.

Matches are billed for 2.30 o'clock.

RUGBY MEETING TONIGHT

An important meeting of the Victoria Rugby Union will be held this evening at 5.30 o'clock in Room 503, Central Building. All clubs are asked to have representatives present.

LOOP CHANGES NAME

CHICAGO, Oct. 21 (CP).—Ken Sells, president of the All-American Girls' Softball Glamour League said here today that in future the circuit would be known as the All-American Girls' Professional League.

"We are not playing softball rules," Mr. Sells said, "so therefore the name we have been using is a bit out of line."

Red Cross Golf At Uplands Club

Finishing with net scores of 66, J. F. Jeffrey and Frank Jeffrey, father and son, topped the field in the Uplands Golf Club Red Cross tournament. The pair will play off for the major award.

Members of the match committee extend their thanks to the competitors and those who donated prizes for the event. The sum of $66 was realized and this amount will be forwarded to the Royal Canadian Golf Association, Red Cross Division.

Competition was exceptionally keen, with the majority of the net scores being between 66 and 76. Scores of the leaders follow:

J. F. Jeffrey	81	15—66
Frank Jeffrey	73	7—66

Major League Ball Attendances Down Slightly This Year

NEW YORK, Oct. 21 (AP).—Major league baseball attendance this year fell off 13 per cent and almost the entire net loss was by the three New York clubs.

Altogether big league baseball drew 7,714,638 compared with 8,874,755 in 1942, a decrease of 1,160,116.

The biggest loss of any one club was in Brooklyn, which slumped 390,227 after drawing more than 1,000,000 for three of the previous four years. Yet the Dodgers still topped both leagues with 688,633. The Giants, with a last-place club, fell off 361,269 and together the Giants and Dodgers lost more than the net drop of the entire National League.

The Yankees dropped 303,213 making a combined loss for the three New York clubs of 1,063,709.

League Play Is Started

Table Tennis Clubs Swing Into Action

Victoria Table Tennis League began its eleventh year of activity as six First Division teams played their first matches of the 1943-44 season at the Crystal Garden this week.

R.A.F. No. 1 got off to a flying start as they easily beat the strong Jokers, 28-8. The Air Force, defending league champions, were at top form, with Walker winning seven games. Barbara Mackay was best for the Jokers with four wins.

The powerful MacDonalds, representing MacDonald Electric, played well to defeat R.A.F. No. 2, in an impressive performance. Browne-Cave won eight games for the winners, with Taylor and Olson getting seven each.

The Chinese Students - Liberty Cafe match was close and exciting all the way, and featured the best table tennis of the evening. The Chinese stars finally managed to win, with George Lowe, their cool, defensive ace, chalking up seven games. Hi Lowe played for the first time in several seasons and won five games. O. Gerard, soldier star of the Liberty team, played very well and took five games.

In the matches for next Monday, the Spark Plugs, newly-formed team, composed of W. McGregor, Joy Payne, Bob Tuthill and Denny Pratt, play their first match against the R.A.F. No. 2. MacDonalds meet R.A.F. No. 1 in the feature match. Jokers play Liberty Cafe. Chinese Students receive a bye.

Individual scores:

R.A.F. No. 1—Walker 7, Sell 6, Brown 5, Edgington 6. Self and Walker 2, Brown and Edgington 2. Total, 28.

Jokers—Vic Tully 3, A. Lynch 0, B. Mackay 4, J. Collier 1, Mackay and Tully 0, Lynch and Collier 0. Total, 8.

MacDonalds—R. Payne 4, Taylor 7, Olson 7, Browne-Cave 8, Payne and Browne-Cave 1, Olson and Taylor 2. Total, 28.

R.A.F. No. 2—Ft. Lt. Smith 2, Sketchely 2, Dunn 1, Watson 1, Smith and Dunn 2, Sketchely and Watson 0. Total, 8.

Chinese Students—Hi Lowe 5, G. Lowe 7, Lou Poy 4, S. Ngai 3, Lou Poy and G. Lowe 1, Ngai and Hi Lowe 0. Total, 20.

Liberty Cafe—W. Robinson 2, Prior 3, Gerrard 5, Hawkes 3, Robinson and Hawkes 1, Gerrard and Prior 2. Total, 16.

Joe Kirkwood's Gas Ration Is Revoked For the Duration

PHILADELPHIA, Oct. 21 (AP).—Huntingdon Valley Country Club Golf Pro Joe Kirkwood was stymied by the Office of Price Administration today when the suburban Abington Ration Board revoked all his gasoline ration for the duration.

The board charged that Kirkwood drove his car on golfing tours between January 26 and July 13 more than seven times the amount of mileage provided him by his coupons.

The investigation followed a statement Kirkwood made in Detroit that he played a big game with Walter Hagen because he was tired after driving 1,000 miles from Pittsburgh.

Undefeated Soccer Leaders to Meet

R.A.F. and V.M.D. Hold Football Spotlight Here Tomorrow

Victoria soccer fans who recall the many hectic battles between the R.A.F. and V.M.D. during the 1942-43 campaign are anxiously awaiting tomorrow's fixture at Royal Athletic Park when these two undefeated clubs come together for the first time this season.

Shipyard workers, beaten in the Province Cup series last year by the Old Country airmen from Patricia Bay, would certainly like revenge, and figure tomorrow will be just as good as any other time. V.M.D. have the majority of their city championship squad intact and in their season's debut against the Navy came up with a smart exhibition.

The lads at Pat Bay who would rather play soccer than any other game, are all set for their engagement with the shipbuilders. Not over confident, the R.A.F. certainly expect to finish on the right end of the score, and their supporters—almost as rabid as the Brooklyn Dodgers' fans of baseball—can see nothing but victory for their side.

Early season activities favor the Old Country players. For one thing they have been playing soccer for many months during the Summer and will certainly have an edge in condition. As to their line-up football fans consider it better than last season, all of which suggests a happy little party for all concerned.

V.M.D., not unlike their opponents, will have some of their 1942-43 players numbered among the missing. Their places, however, according to the shipbuilders' board of management, have been capably filled, and the club is just as strong as it was last year. While not wishing to make any estimate of the final outcome, the V.M.D. squad are certain the R.A.F. lads will know they have been in a soccer game.

ARMY AND YARROWS MEET AT WORK POINT

Out at Work Point Barracks, Manager Ken Elliott's Army footballers will be at home to Yarrows in a league fixture. Troops gained a 1-1 stalemate in their season's debut with the Flyers, but must be given the edge over the Esquimalt shipbuilders.

Yarrows, beaten 6-0 by the R.A.F. last week, will make certain changes in their line-up, and Manager John Wall, veteran footballer, is confident the club will turn in an improved exhibition.

Paul King will officiate at Royal Athletic Park, and Danny Olaney will toot the whistle at Work Point Barracks. Kick-offs are slated for 2.30 o'clock.

Teams will be selected from the following players:

Army—McMillan, Cann, Underwood, Speller, Sinclair, Hunt, Holness, Budliski, Everett, Conti, Hayward, Davis, Travis, Woodchop and Landis.

R.A.F.—Cook, Witham, Hardwicke, Boulter, Sanderson, Dumphy, Craig, Dunn, Richman, Cox, Davidson, Hall, Lowe and Brodie.

V.M.D.—Evans, Reside, Slogar, Lorandini, Dougan, Travis, Parks, Barnswell, Payne, Perry, Morgan, French, Musgrave and Hutchinson.

Yarrows line-up will be selected from: Saddler, Geoghegan, Knapp, Watson, Radrick, Anderson, E. Barnswell, Stewart, A. Watt, Harris, Hall, Johnston, Van Horne, Holloway, Meddler and J. Watt.

Sunday's fixtures will bring together the East Indians and R.A.F. at Bullen Park and Navy and Esquimalt at Admirals Road.

Juvenile Soccer

Single-goal triumphs were recorded in two Lower Island Juvenile Football Association matches played yesterday. Victoria High School defeated Oak Bay High School, 1-0, on the latter's ground and at Fernwood Road Mount Douglas nosed out Victoria High, 3-2.

Royals and Victoria City Fourth Division clubs, will meet Saturday at Royal Athletic Park at 1 o'clock in the curtain-raiser to the senior game.

The Ruhr is "one vast heap of rubble," said Chief Engineer Charles Higgins, an exchanged prisoner of war who has just reached Britain.

BLYTHE, Cal., Oct. 21 (AP).—It's just talk, people said of oft-heard reports that a large alligator was roaming the wilds of the Colorado River country. But four hunters returned here and claimed they shot the alligator—and exhibited photographs to prove it. The hunters believe the 500-pound 'gator escaped from a park 40 years ago.

This is no time to RELAX!

THIS war is far from over. Our leaders do not think it is won yet, though we *are* winning. But it takes blood, and sweat, and tears over the last mile, too, and you should be thankful that you can do *your* part by LENDING your money, at good interest and do the double job of backing our troops and your own future in Canada with the same transaction.

So . . . buy Victory Bonds now. Buy all you can from savings, then buy more on the instalment plan, out of income. The money you LEND for Victory Bonds will earn good interest, and will provide our troops with the extra power they require to speed the victory.

More people must buy more Bonds in this Victory Loan! Think now of what the men on the firing line face. Ponder a moment on the youngster who is daring the blinding flak over enemy targets. Dream about the lad who is sticking it out in cold lashing spray to keep it *our* ocean.

Then dig deep for those Bonds that are needed to put this loan over the top.

OUR LEADERS SAY....

Mr. King—July 25, 1943

"Our men are certain to continue in action on many fronts until the enemy has surrendered. No one can say for how long that may be . . . they must command a singleness of purpose in our hearts and minds and the utmost that our country can give in their support."

Mr. Churchill—July 27, 1943

"Nevertheless, let us not allow this favourable inclination of our fortunes to blind us to the immensity of the task before us or of the exertions still to be made, and privations and tribulations still to be endured and overcome."

Mr. Roosevelt—July 29, 1943

"We still have to defeat Hitler and Tojo on their own home grounds. No one pretends that it will be an easy matter. We shall not settle for less than total victory."

HOW TO BUY

Give your order to the Victory Loan salesman who calls on you or place it with any branch bank or trust company. You can also buy Bonds through your employer for cash or on the Payroll Savings Plan. Or send your order to your local Victory Loan Headquarters. Any one of these agencies will be glad to give you every assistance in completing your application. Bonds may be bought in denominations of $50, $100, $500, $1,000 and larger.

Appointments to Board Rejected

Approval of appointments of Councillor K. W. Richmond and M. E. Paine to the Saanich School Board has not been granted by the Council of Public Instruction, Hon. H. G. T. Perry, Minister of Education, announced yesterday.

The appointments were made by the school trustees to fill seats left vacant by J. R. L. Burridge and Frank Tupman. Councillor Richmond has announced that he would not accept his appointment because it was not unanimous.

"The vacancies on your board arose over six months ago," Mr. Perry stated. "An election should have been held at that time or, if that were not deemed advisable by the Municipal Council, your board should have, months ago, taken advantage of the provisions of Section 40 of the Public Schools Act. Had a unanimous request been received from your board at that time for the temporary appointment of two trustees to fill existing vacancies, it would have warranted the favorable consideration of the Council of Public Instruction.

"As the municipal elections will be held in the course of a few weeks, and as the request from your board was not unanimous and, according to the press, one of the persons whose appointment is recommended by two of the trustees has indicated that he would not accept the appointment, the Council of Public Instruction considers that it would not be in the best interests of the municipality to approve of the two appointments suggested by your board at this time."

Martin Neilson, chairman of the Saanich School Board, said he would call a special meeting next Wednesday to consider the notice from Mr. Perry.

Local Officials Now Fix Rentals

Fixing and adjustment of rents by local officials as provided for in the new Rentals Act will speed the handling of all such matters, J. R. Anstis, of the Rentals Control Administration, said yesterday at the Empress Hotel. Mr. Anstis is in Victoria to arrange details with the local office.

"The new act streamlines the whole setup and facilitates adjustments in rents. Applications can now be filed at the local office in the Union Building and taken care of very quickly by Mr. J. B. Dunn and his assistant, Mr. Armstrong," he said.

Up till October 1, when the new act came into effect, such appeals went before a special court presided over by Judge H. H. Shandley. A number of applications have accumulated since that date, but they will be quickly disposed of now that local officials are empowered to proceed, it was stated.

Local officials are also empowered to issue permits to landlords who wish to divide their premises into additional units and want tenants to vacate within three months.

Appeals from local decisions and applications for a permit to dislodge obnoxious tenants, as provided by provincial law, must be made before Judge Boyd at the County Court.

"The new act gives the landlord much greater certainty of regaining use of his premises and security for the Winter months is guaranteed the tenant."

To Receive Delegation

Premier Hart will receive a Vancouver delegation from the continuations committee of the All-Union Conference next Tuesday to discuss the two-week-old strike of more than 500 spruce loggers from eight camps in the Queen Charlotte Islands, it was announced at a meeting of the committee last night.

Local Men Win Wings and Commissions Together

TWO Victoria men who recently won their wings as sergeant pilots at No. 19 S.F.T.S., Vulcan, Alta., and who have since been commissioned, are those seen above. They are Derek C. R. Horne, left, and Arthur B. Elworthy.

Pilot Officer Horne, son of Mr. and Mrs. W. H. Horne, 1527 Clive Drive, was in The Canadian Scottish Regiment before war broke out, and served in the army overseas for a year and one-half before remustering for air crew in the R.C.A.F. He was born in Oak Bay 22 years ago, and was educated at Monterey and Oak Bay High Schools, leaving high school to enter the services.

His three brothers in service are Second Lieut. H. R. Horne, R.A., taken prisoner of war at Crete, Lieut. L. E. Horne, R.C.N., and Inspector E. E. Horne, of the Kenya Police in Africa.

Pilot Officer Elworthy, now 21 years of age attended Sir James Douglas and Victoria High Schools, and was employed by the Straits Towing Co. before enlisting in the Fall of 1942. He is the son of Mr. and Mrs. H. B. Elworthy, 814 St. Charles Street.

Drug Thieves Are Convicted

Two Plead Guilty Of Possession

Convicted yesterday afternoon of having entered and robbed the Victoria Pharmacy, 1000 Government Street, during the early hours of Sunday, August 8, Frank Schlosser, James Sutherland Scoular, Arthur F. Walton and James O. Crozier were remanded in custody for sentence at the end of the Fall Assizes, over which Mr. Justice J. M. Coady is presiding.

Almost immediately upon their conviction for robbery, Scoular and Crozier reappeared to plead guilty to a charge of unlawfully retaining a quantity of narcotics allegedly taken from the drug store.

W. H. M. Haldane appeared for the Crown, W. A. Brethour for Schlosser and Stuart Henderson for Scoular, Crozier and Walton in the robbery trial, and Herbert W. Davey for the Crown in the case of retaining.

Jurors in the robbery trial were: George J. Chamberlain, foreman, Stanley F. Ireland, Thomas S. Milady, William C. Mearns, Oliver Day, Ralph Tennyson, Joseph C. Isherwood, Kenneth R. Genn, Alfred L. Oakley, Howard Kingsley Newell, Byron T. Leigh and Walter Dunford. The trial lasted four days, plus one night session.

The Crown opened late yesterday afternoon a case against Cpl. John Frank, accused of an act of gross indecency with A.C.2 Ernest Johnson who was tried separately and convicted last week. Frank's trial is expected to be concluded today.

The jury consists of Thomas R. Palmer, foreman; Hugh McAlpine, Frank E. Anderson, Oliver Day, Leslie J. Lane, Clarence B. Bailey, Howard K. Newell, Caleb Hadland, Percival J. Hayward, Richard Eaton, William G. Bird and John W. K. Gilstrap.

Favor Controls To Save Forests

A resolution that the Provincial Government enact controls over selected areas with a view to preserving timber in natural beauty spots has been submitted to the Government by the Victoria Chamber of Commerce.

It was prepared by a special committee consisting of Harold Husband, Walter Luney, E. N. Horsey, and Kenneth Drury as a result of logging on Malahat Drive by the Malahat Park Logging Company.

The resolution stated in part that due to the lack of a province-wide policy of conserving timber stands which enhance many beauty spots these spots are being lost to the enjoyment of the people of the province and visitors.

"The failure to maintain control and set aside for posterity specified areas of attraction, free from exploitation, has brought serious inroads upon valuable scenic vistas and others are threatened," it said.

The resolution also embodied requests that the Malahat Park Logging Company be required to preserve all unprofitable timber near the highway and to convert waste into fuel, that the Malahat area be reforested in 1944 and that the company reduce damage to young growth near the highway through selective methods.

VANCOUVER, Oct. 21 (CP).—An outstanding student in the faculty of applied science at the University of British Columbia, Alvin J. Narod of Victoria, will be awarded the William Mackenzie Swan Memorial Bursary at the Autumn convocation next Wednesday.

Very Rev. Dean Cecil Swanson, D.D., of Christ Church Cathedral, will be the speaker at the convocation which will award B.A. and M.A. degrees to 44 students.

Film Star Will Speak Here Today

New York Stocks

NEW YORK, Oct. 21 (AP)—Oils led a general decline in today's stock market, although early setbacks of major fractions to two points were reduced after midday and isolated strong spots cropped up near the close.

The retreat of the petroleum group followed announcement John D. Rockefeller Jr., had sold 1,000,000 shares of his holdings in the Standard Oil group to underwriters and would invest the proceeds of around $25,000,000 in war bonds.

The news, otherwise, was on the side of bullish forces.

The Associated Press 60-stock average was off .3 of a point at 50.5. Transfers totaled 591,490 shares, compared with 611,090 Wednesday.

Montreal Stocks

MONTREAL, Oct. 21 (CP)—Trends were narrowly mixed in trading on the stock exchange and curb market today.

In utilities Montreal Power opened for a gain but slipped below par. Winnipeg Electric dropped back.

Ahead in industrials were Massey common and preferred. Lower were B.C. Packers and Hamilton Bridge.

In mines, O'Brien, Siscoe and Sullivan showed profits and Lamaque and Eldorado backed up.

Toronto Stocks

TORONTO, Oct. 21 (CP)—Mild selling pressure gave the stock market a setback today and the close was down for all four groups. Losses were fairly wide in spots in both the gold and the industrial groups. Turnover was about 250,000 shares.

Golds posting declines of 3 to 5 cents included Kerr-Addison, O'Brien, Leitch, McKenzie Malartic Gold Fields and Sylvanite.

Mild weakness dominated the base metal list. In the industrial section losses outnumbered the gains in the utility, senior oil, food and steel groups. The papers showed gains and losses and the liquors were unchanged.

Home, Calgary & Edmonton, Davies, Dalhousie and Vermilata were all lower. Vermilata backed to 28 for a loss of 4 cents.

THEY GIVE THEIR LIVES

YOU LEND YOUR MONEY

SPEED THE VICTORY!

When a man goes into battle, no matter how well trained he is; no matter how well equipped he is; no matter how free of fear his spirit may be, he knows full well that each battle may be his last. For in every battle he survives, he sees men with whom he's been soldiering fall around him. So, whatever a fellow's chances, or shining hopes—or even cocksure expectation may be—of coming out all right, he goes in—giving his life. Can we at home permit ourselves to be less than worthy of our gallant protectors? So little is asked of us . . . just that we lend our money that it may be used to equip these men to keep on fighting through to Victory, that we may forever live in freedom and security. Our fighting men are putting an impenetrable wall of safety around our lives while they sacrifice their own. The least we can do is empty our wallets and pocketbooks, our sugar bowls and pay envelopes—just as a loan, guaranteed by our Government—to buy MORE VICTORY BONDS, right now and as long as it takes our boys and our Allies TO WIN!

The Daily Colonist

RATES FOR CLASSIFIED OR WANT ADVERTISEMENTS

Two cents a word each insertion, twelve cents a word a week, with a minimum of ten words, cash with order. No advertisements accepted for less than twenty-five cents.

Death and Funeral Notices, $1.50 first insertion, $1.00 for each additional insertion. Marriages, Cards of Thanks and In Memoriam Notices, $1.50 per insertion.

Birth Notices, $1.50 per insertion.

Advertisers who desire to have replies addressed to a box at The Colonist and forwarded to their private address. A charge of ten cents is made for mailing replies. In this case add three words (Box ..., Colonist) to the count for the number of words.

Out-of-town readers of our advertisements ask advertisers to give address as well as phone numbers, as it is not always possible to communicate through the phone.

Any claim or rebate on account of error or omissions must be made within thirty days from the date of the same, otherwise claim will not be allowed.

The Colonist will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one issue.

The Colonist service is available every day from 9 a.m. to 9 p.m., excepting Sunday. Just call Empire 4114.

To insure insertion, Classified Ads should reach The Colonist before 9 p.m. on the day previous to publication.

Classified Ads for The Sunday Colonist will be accepted up to 9 p.m. on Saturdays.

5 IN MEMORIAM (Continued)

McKINNON—In proud and loving memory of Desmond McKinnon, chief petty officer, R.M.C.N. Margaree, lost at sea October 22, 1940.

And as for comfort in our hearts
Shall keep a shining memory
—Inserted by his wife and children.

WEBB—In loving memory of our dear son, Horace, who was lost at sea on H.M.C.S. Margaree, October 22, 1940.

Time has changed in many ways,
But one thing changes never—
The memory of those happy days
When we were all together.
We have lost, but God has gained
One of the best the world contained.
Three sad and lonely years have passed
Since our great sorrow fell.
The shock that we received that day
We still remember well.
—Ever remembered by his loving mother and father, Mr. and Mrs. P. H. Webb, and brothers Fred and Bill.

WEBB—In fond and loving memory of our brother and uncle, Horace Merle, who lost his life on H.M.C.S. Margaree, October 22, 1940.

We have only your memory, dear Horace,
To remember our whole life through,
But the sweetness will linger forever
As we treasure the image of you.
—Inserted by Fred, Fly and nephew.

WEBB—In loving memory of Horace Merle Webb, R.C.N., died in action October 22, 1940.

His smiling way and pleasant face
Are a pleasure to recall;
He had a kindly word for each
And died beloved by all.
Some day we hope to meet him,
Some day, we know not when,
To clasp his hand in the better land,
Never to part again.
—Inserted by brother Bill.

WILSON—In loving memory of P.O. Charles M. ("Tug") Wilson, lost on H.M.C.S. Margaree on October 22, 1940.

The blow was bitter, the loss severe,
To part with one we loved so dear;
Though the trail is hard, we'll not complain,
But trust in God to meet again.

Many Thrills of Bombardier Life At the Dominion

America's famous secret weapon the Norden bomb sight, has reached the screen in "Bombardier," which opens today at the Dominion Theatre. The picture tells the stirring story behind the sight how a determined Air Force officer dedicated his life to seeing that the United States obtained and developed this priceless mechanism, and how thousands of young cadets are trained to make full use of its remarkable potentialities.

Against this intensely interesting background R.K.O. Radio has played its dramatic human story in vivid fashion. Pat O'Brien and Randolph Scott are co-starred as rival flyers, with the former as the courageous advocate of the Norden instrument and Scott as a reckless proponent of dive-bombing tactics. But it is O'Brien who sells his superiors on the value of high-altitude bombing and is put in charge of a bombardier training school in New Mexico, where he can test out his own theories and teach the host of trained bombardiers he has envisioned.

Amusements

Atlas—"Dixie" starring Bing Crosby and Dorothy Lamour.

Cadet—Constance Bennett and Brod Crawford in "Sin Town."

Capitol—"So Proudly We Hail," with Claudette Colbert and George Reeves.

Dominion—Pat O'Brien and Randolph Scott in "Bombardier."

Oak Bay and Plaza—"Stage Door Canteen," with an all-star cast.

Rio—"Kid Dynamite," starring the East Side Kids.

York—"Lucky Jordan," starring Alan Ladd and Helen Walker.

ATLAS THEATRE. One of Paramount's biggest, brightest musicals, with Bing Crosby and Dorothy Lamour doing the starring honors, supported by Marjorie Reynolds, Billy de Wolfe, Lynne Overman, Raymond Walburn and Eddie Foy, Jr., is "Dixie," and it is currently at the Atlas Theatre complete with twelve songs—six new ones and six old favorites—and beautiful Technicolor.

CADET THEATRE. Ward Bond, whose acting stock has been soaring of late with his recent characterization of John L. Sullivan in "Gentleman Jim Corbett," has been awarded a plum assignment by Universal. Bond plays the top "heavy" role in "Sin Town," an oil boom story in which he is starred with Constance Bennett, Brod Crawford, Patric Knowles, Anne Gwynne, Leo Carrillo and Andy Devine. The picture is now playing at the Cadet Theatre.

YORK THEATRE. Alan Ladd, neatest and toughest, smoothest and suavest of movie tough guys, is currently thrilling audiences at the York Theatre in Paramount's super-duper thriller about Nazi spies and saboteurs, "Lucky Jordan," with lovely Helen Walker, sinister Sheldon Leonard, blonde Marie McDonald and a host of others in the cast.

CAPITOL THEATRE. There are two glamorous stars in addition to Claudette Colbert in "So Proudly We Hail," which is now showing at the Capitol Theatre. They are Paulette Goddard and Veronica Lake. The love stories of the three girls are played against thrill-charged scenes of life on battle-scarred Bataan and Corregidor. The picture is, however, primarily a tribute to those gallant girls who fought side by side with their men, teasing, loving, inspiring them, and never letting them down.

OAK BAY AND PLAZA THEATRES. Forty-eight top personalities of screen, stage and radio headline the cast of "Stage Door Canteen," which is now showing at the Oak Bay and Plaza Theatres. It is a stirring romantic story of a young American soldier and a pretty junior hostess set in the glamorous atmosphere of New York's well-known entertainment spot for servicemen of the United Nations. Cheryl Walker and William Terry have the principal roles in Sol Lesser's star-studded production.

RIO THEATRE. The East Side Kids "join up" with Uncle Sam in "Kid Dynamite," their Monogram hit at the Rio Theatre. Leo Gorcey signs on as a sailor, Bobby Jordan becomes a soldier, and Toughie Huntz Hall sports a marine uniform in the picture's climax. Even their pretty leading lady, Pamela Blake, gets in the patriotic swing by joining one of the women's auxiliary forces.

New Government Buildings for B.C.

VANCOUVER, Oct. 21 (CP).—Premier Hart announced here today that the Provincial Government's $5,000,000 building programme involves extensions and alterations to the Legislative Buildings and other offices in Victoria as well as a $1,000,000 Government building for Vancouver and projects for many other cities under the postwar building programme.

Mr. Hart said the building projects will be incorporated in the general reconstruction programme of highway building and farms for veterans announced during the Summer.

He placed great hopes in the $25,000,000 Dominion-Provincial veterans' resettlement scheme towards which British Columbia is contributing a million acres of soil-surveyed land.

Plan Postwar Municipal Group

A decision to communicate with Greater Victoria reeves with the object of forming an inter-municipal postwar re-establishment group was reached during a meeting of the City Council re-establishment committee presided over by Alderman B. J. Gadsden yesterday morning.

When such an inter-municipal group is formed the city committee intends to suggest that members discuss transportation, civil aviation, a Greater Victoria sewerage system, institutions for orphans and aged persons, construction of a stadium, auditorium and arena building, a technical school and college and beautification of Greater Victoria.

Representatives of school boards of the city, Saanich, Oak Bay and Esquimalt will be asked to attend any meetings held to discuss a technical school and college.

The re-establishment committee decided to recommend to the City Council that Alderman Gadsden and Forrest L. Shaw, city solicitor, be appointed representatives to the Victoria Chamber of Commerce inter-municipal study group.

THOROUGH BURGLARS

CHICAGO, Oct. 21 (AP).—Burglars who looted the Pine Lodge in suburban Skokie left only the bar, and that was nailed down. G. W. Elliott, the owner, reported to police that the burglars took 22 tables, 112 chairs, 210 pounds of beef, 10 pounds of pork, 50 pounds of butter, $400 from the cash register, $500 worth of liquor and all furnishings but the bar.

Bank Debits for September In B.C. Up by 29 Per Cent

OTTAWA, Oct. 21 (CP).—Bank debits from individual accounts increased sharply in September, reflecting "a marked acceleration in economic movements," the Dominion Bureau of Statistics said today.

Cheques cashed during the month totaled $4,485,000,000, a gain of 27.6 per cent compared with the $3,516,000,000 for September, 1942. The greatest percentage increase was in the Prairie provinces where only one of 10 reporting centres showed recession. The total for the Prairies economic area was 53.4 per cent greater than in the same month last year.

The gain in the Maritime Provinces was slightly more than 9 per cent, in Quebec 17 per cent, in Ontario 27 per cent and in British Columbia 29 per cent.

Cheques cashed during the first nine months of the year totaled $38,373,000,000 compared with $32,292,000,000 in the same period of 1942, an increase of 18.8 per cent.

GREAT INCREASE IN FOUR YEARS

"During the first nine months of 1939 bank debits were $22,731,000,000, the increase in the four-year period having been nearly 69 per cent," the bureau said. "The remarkable advance from the same period four years ago is a measure of transformation of the Canadian economy during the war period."

Following are September bank debit figures with comparative figures for August, 1943, and September, 1942, in brackets, in millions of dollars:

Maritime Provinces—Halifax, 52.4 (48.8, 31.9); Moncton, [illegible]; Saint John, 24.7 (26.6, 20.7). Totals, 95.5 (91.7, 87[illegible]).

RECTAL SORENESS AND PILE TORTURE QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness do not delay treatment as the trouble may become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from Modern Pharmacy and Cunningham Drug Stores or any druggist and use as directed. This formula which is used internally is a small tablet easy to take and will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost. If you try Hem-Roid and are not entirely pleased with the results your druggist will gladly return your money. (Adv.)
